

# UNPRIMED 50 S&W PISTOL BRASS - 50 S&W MAGNUM BRASS CASES 50/BOX

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

HORNADY UNPRIMED 50 S&W PISTOL BRASS Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

# Safety Instruction Guide for UNPRIMED PISTOL BRASS 50 S&W MAGNUM BRASS CASES

## Introduction

Thank you for choosing Hornady Unprimed Pistol Brass. This product is designed for precision shooting and reloading applications. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle brass cases with care to avoid injury.
- Store brass in a cool, dry place away from direct sunlight.
- Ensure that all reloading equipment is in good working condition before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading.
- Keep this product out of reach of children and unauthorized users.
- Regularly check for product recalls and updates on the EU Safety Gate platform.

## Specific Safety Precautions for Use

- **Potential Hazards:**
  - Improper handling of brass cases can lead to cuts or injuries.
  - Reloading with incorrect specifications can cause firearm malfunctions.
- **To Avoid Hazards:**
  - Inspect all brass cases for defects before use.
  - Follow manufacturer guidelines for reloading specifications.
  - Use only approved powders and primers as specified by the manufacturer.
  - Do not exceed recommended load limits for the cartridge.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including Hornady Unprimed Pistol Brass, reloading press, scales, and appropriate powder and primers.

### 2. Inspection:

- Inspect each brass case for any signs of damage or wear. Discard any defective cases.

### 3. Reloading Process:

- **Resize Cases:** Use a resizing die to resize the brass cases to the correct dimensions.
- **Prime Cases:** Insert primers into the cases using a priming tool. Ensure proper seating of the primers.
- **Add Powder:** Measure and add the recommended amount of powder to each case.
- **Seat Bullets:** Place bullets on top of the charged cases and use a bullet seating die to seat them to the correct depth.
- **Crimping (if applicable):** Crimp the case mouth to secure the bullet in place, if required by your load specifications.

### 4. Final Inspection:

- Check each completed cartridge for proper assembly and seating. Ensure that there are no visible defects.

## **Disposal Instructions**

- Dispose of any defective or damaged brass cases in accordance with local regulations.
- Do not dispose of brass cases in regular household waste. Check with local recycling centers for proper disposal methods.
- Always ensure that spent primers and powder residues are disposed of safely and in accordance with hazardous waste guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of Hornady Unprimed Pistol Brass, please refer to the official Hornady website or contact your local dealer for assistance.

Thank you for prioritizing safety and compliance while using our products. Enjoy your shooting experience with Hornady Unprimed Pistol Brass!
