RCBS 50 BMG 11/2" DIE KIT Safety Instructions

Introduction

Thank you for choosing the RCBS 50 BMG 11/2" Die Kit. This product is designed for reloading the .50 BMG cartridge, ensuring precision and quality in your ammunition. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always handle reloading tools and ammunition components with care.
- Keep the workspace clean and organized to avoid accidents.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Store all components in a secure location, out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that no one is in close proximity while you are reloading.
- Follow all local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- Ensure that the die kit is compatible with the .50 BMG cartridge before use.
- Inspect all components for damage or defects before starting your reloading process.
- Use only recommended materials and components specified by the manufacturer.
- Do not exceed recommended load specifications to avoid dangerous malfunctions.
- Avoid distractions while reloading, and do not rush the process.
- If you are inexperienced, seek guidance from a knowledgeable individual or attend a reloading safety course.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the die kit, brass cases, powder, primers, and projectiles.
- Ensure your work area is welllit and free from clutter.

2. Installation of the Die

- Secure the die in the reloading press according to the manufacturer's instructions.
- Adjust the die to the correct height for the .50 BMG cartridge, ensuring proper alignment.

3. Reloading Process

- Begin by resizing the brass cases using the sizing die.
- Clean the cases thoroughly before reloading.
- Insert the primer into the primer pocket using the appropriate tool.
- Measure and add the correct amount of powder to each case using a reliable scale.
- Seat the projectile firmly into the case using the seating die, ensuring it is at the correct depth.

4. Final Inspection

- Inspect each completed round for defects, ensuring that all components are securely in place.
- Store completed ammunition in a safe and appropriate manner.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away hazardous materials, such as primers and powder, in regular trash.
- Contact local waste management authorities for proper disposal methods of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the RCBS 50 BMG 11/2" Die Kit, please refer to the manufacturer's contact information provided on the product packaging or visit the official website for support and additional resources.

By following these safety instructions, you can ensure a safe and effective reloading experience with the RCBS 50 BMG 11/2" Die Kit. Always prioritize safety and compliance with local laws and regulations while handling reloading equipment and materials.
