

LARGE RIFLE PRIMERS - #200 LARGE RIFLE PRIMERS 1,000/BOX

[Reloading](#) > [Primers](#) > [Rifle Primers](#)

These are the “bread-and-butter” of reloading, the most commonly called-for primers in reloading recipes. CCI standard primers are remarkably clean-burning, leaving primer pockets cleaner and extending the time between pocket cleaning. That’s a huge benefit for progressive reloaders. They are more sensitive and easier to seat than older CCI primers, and engineered for smooth feeding in automated equipment. FEATURES Clean-burning initiator compound Larger “sweet spot” for guns that produce off-center strikes Easier to seat than ever before Improved sensitivity for “critical-need” loading. NON-APS STRIPS

Attributes

- Name: [#200 LARGE RIFLE PRIMERS 1,000/BOX](#)
- Manufacturer: [CCI](#)
- Product no.: 749013738
- Mfr. No.: 11
- Gefahrgut - Versand nur mit DPD - Nachnahme ausgeschlossen: {yes}
- Size: Large Rifle
- Quantity: 1,000
- Delivery weight: 0.68kg
- Shipping height: 104mm
- Shipping width: 94mm
- Shipping length: 191mm
- UPC: 076683500113

Safety Instruction Guide for LARGE RIFLE PRIMERS #200

Introduction

Thank you for choosing LARGE RIFLE PRIMERS #200. This guide provides essential safety information to ensure the safe use of the product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the safe handling of ammunition components.
- Store primers in a cool, dry place away from direct sunlight and heat sources.
- Keep primers out of reach of children and unauthorized individuals.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling primers.
- Do not use primers that appear damaged or have been stored improperly.
- Follow all local laws and regulations regarding the use and storage of primers.

Specific Safety Precautions for Use

- Avoid static electricity by grounding yourself when handling primers.
- Do not expose primers to moisture or water.
- Handle primers gently to prevent accidental detonation.
- Use only in wellventilated areas, away from open flames or sparks.
- Ensure that you are using the correct type of primer for your specific reloading recipe.
- Be aware of the potential hazards associated with reloading, including the risk of explosion if improper procedures are followed.

Instructions for Installation and Usage

• Preparation:

- Gather all necessary equipment and materials for reloading.
- Ensure your workspace is clean and organized.

• Loading the Primers:

- Open the primer box carefully to avoid spilling.
- Use a primer seating tool to insert the primer into the cartridge case.
- Ensure that the primer is seated flush with the case head.

• Reloading Process:

- Follow your specific reloading recipe for the correct powder charge and projectile type.
- Doublecheck all measurements and ensure accuracy to prevent accidents.

• PostReloading:

- Inspect all loaded cartridges for proper seating and any visible defects.
- Store loaded ammunition in a safe, designated area away from primers.

Disposal Instructions

- Dispose of unused or expired primers in accordance with local hazardous waste regulations.
- Do not throw primers in regular trash or dispose of them in any manner that could pose a risk to safety.
- Contact local waste management authorities for guidance on safe disposal methods.

Contact Information for Further Support

For any inquiries related to safety or product information, please refer to the appropriate local authorities or your retailer.

By following these guidelines, you can ensure the safe use of LARGE RIFLE PRIMERS #200. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety measures.
