

# UNPRIMED 40 S&W PISTOL BRASS - 40 S&W BRASS 200/BOX

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

HORNADY UNPRIMED 40 S&W PISTOL BRASS Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

# Safety Instruction Guide for UNPRIMED PISTOL BRASS 40 S&W BRASS 200/BOX

## Introduction

Thank you for choosing Hornady's Unprimed Pistol Brass for your reloading needs. This guide provides essential safety instructions to ensure safe handling and use of this product. Please read this guide carefully before using the brass to ensure your safety and the safety of others.

## General Safety Guidelines

- Ensure that you are familiar with the laws and regulations regarding ammunition reloading in your country or region.
- Always handle brass and all reloading components with care to prevent accidents.
- Keep all reloading materials out of reach of children and unauthorized persons.
- Use proper personal protective equipment (PPE) such as safety glasses and gloves when handling brass and during the reloading process.
- Be aware of the potential hazards associated with reloading, including the risk of fire, explosion, and exposure to hazardous materials.

## Specific Safety Precautions for Use

- Verify that the brass is compatible with your firearm before use.
- Inspect each piece of brass for defects or damage before reloading. Do not use damaged brass.
- Store brass in a cool, dry place to prevent corrosion and degradation.
- Do not exceed recommended load data when reloading ammunition.
- Always use appropriate reloading tools and equipment designed for the specific caliber.
- Avoid distractions while reloading to maintain focus and ensure safety.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary reloading equipment including scales, powder measure, and dies.
- Ensure your workspace is clean and organized.

### 2. Inspect Brass:

- Check each piece of unprimed brass for signs of wear or damage.
- Discard any brass that appears cracked, dented, or otherwise compromised.

### 3. Priming:

- Follow manufacturer instructions for priming the brass.
- Use the correct primers that match the specifications for 40 S&W.

### 4. Charging:

- Measure and add the appropriate amount of powder to each case.
- Doublecheck measurements to avoid overcharging.

### 5. Seating Bullets:

- Seat bullets to the correct depth as specified in your reloading manual.

- Ensure bullets are seated evenly and securely.

#### **6. Final Inspection:**

- Inspect completed rounds for consistency and quality.
- Store finished ammunition in a safe, designated location.

## **Disposal Instructions**

- Dispose of any defective or damaged brass according to local regulations.
- Do not dispose of brass in regular household waste. Check with local recycling facilities for proper disposal methods.
- Ensure that any leftover powder or primers are disposed of in accordance with hazardous waste regulations.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding this product, please contact your local Hornady representative or authorized dealer. They can provide assistance and further information regarding safety practices and product usage.

Thank you for your attention to these safety guidelines. Your safety is our priority.
