

MATCH GRADE BUSHING - .247" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.247" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016850
- Mfr. No.: 594247

MATCH GRADE BUSHING Safety Instruction Guide

Introduction

Thank you for choosing the Hornady Match Grade Bushing, designed for precision reloading. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read and understand all instructions before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when handling reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any damage or wear before use.
- Follow all local laws and regulations regarding ammunition and reloading activities.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use can lead to personal injury or damage to equipment.
 - Oversizing of case necks may result in ammunition failure.
- **Avoiding Hazards:**
 - Use the correct bushing size for your specific bullet to ensure proper tension.
 - Do not exceed the recommended sizing increments (.002 inch) to avoid damaging the brass.
 - Ensure the decap spindle is properly installed before use.
- **Age Specific Warnings:**
 - This product is not intended for use by individuals under the age of 18. Ensure adult supervision when used by younger individuals.

Instructions for Installation and Usage

- **Installation:**
 1. Select the appropriate neck sizing bushing based on your bullet specifications.
 2. Remove the die from the press and unscrew the bushing holder.
 3. Insert the selected bushing into the holder and tighten securely.
 4. Reattach the die to the press ensuring it is properly aligned.
- **Usage:**
 1. Place the case in the shell holder of your reloading press.
 2. Raise the ram to bring the case into contact with the bushing.
 3. Apply consistent pressure to size the case neck.
 4. Lower the ram and remove the case from the shell holder.
 5. Inspect the case neck for proper sizing and tension.
- **Maintenance:**
 - Clean the bushing and die after each use to prevent buildup of brass shavings and debris.
 - Store the product in a dry place, away from moisture.

Disposal Instructions

- Dispose of any damaged or worn bushings and dies according to local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the use of the Hornady Match Grade Bushing, please consult your retailer or manufacturer. Ensure you have the product details available for accurate assistance.

By following the above guidelines, you ensure a safe and effective reloading experience with the Hornady Match Grade Bushing. Thank you for prioritizing safety in your reloading practices.
