

# MATCH GRADE BUSHING - .265" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [.265" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016860
- Mfr. No.: 594265

# MATCH GRADE BUSHING Safety Instruction Guide

## Introduction

Thank you for choosing the MATCH GRADE BUSHING .265" DIAMETER MATCH BUSHING from Hornady. This product is designed for precision reloading and is equipped with features that enhance usability and safety. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using reloading equipment.
- Inspect the bushing and associated equipment before each use for any signs of damage or wear.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Use the bushings only with compatible Hornady Match Grade Dies.
- Do not exceed the recommended sizing increments when adjusting the bushings.
- Avoid using excessive force when resizing cases to prevent damage to the bushing or the die.
- Ensure that the work area is well lit and free of clutter to prevent accidents.
- Be aware of the potential for brass shavings and debris; clean the area regularly to maintain safety.

## Instructions for Installation and Usage

### 1. Installation of Bushing:

- Ensure the die is clean and free from debris.
- Select the appropriate bushing based on your desired bullet tension.
- Insert the bushing into the neck sizing die until it is securely seated.

### 2. Using the Match Grade Full Length Die:

- Place the case into the shell holder of your reloading press.
- Raise the ram to bring the case into the die.
- The die will size the case body, bump the shoulder, and size the neck with the installed bushing.

### 3. Using the Match Grade Neck Die:

- Insert the case into the shell holder.
- Raise the ram to bring the case into the neck die.
- The neck will be sized, and the shoulder will be bumped without sizing the body.

### 4. Post Use Care:

- Remove the bushing from the die after use and clean it to prevent corrosion.
- Store the bushing in a dry place, away from direct sunlight and moisture.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not throw bushings into regular trash if they are contaminated with hazardous materials.

- Consider recycling options for metal components where available.

## **Contact Information for Further Support**

For safety inquiries or support regarding the MATCH GRADE BUSHING, please contact your local Hornady representative or visit the official Hornady website for more information.

By following these guidelines and instructions, you can ensure a safe and effective experience with your MATCH GRADE BUSHING .265" DIAMETER MATCH BUSHING. Thank you for your attention to safety.
