

MATCH GRADE BUSHING - .270" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.270" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016864
- Mfr. No.: 594270

MATCH GRADE BUSHING Safety Instructions

Introduction

Thank you for choosing the Hornady Match Grade Bushing .270" Diameter Match Bushing. This product is designed for precision reloading and is equipped with features that enhance its performance and safety. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or wear before use.
- Follow all local regulations and guidelines regarding reloading and ammunition.

Specific Safety Precautions for Use

- Do not exceed recommended sizing dimensions; using bushings outside specified limits can lead to unsafe conditions.
- Ensure that the bushing is properly installed before use to prevent accidents.
- Avoid using excessive force when resizing cases to prevent damage to the bushing or the reloading die.
- Be cautious when handling brass and reloaded ammunition, as they can be sharp or hazardous.
- If you experience any unusual resistance or difficulty during operation, stop using the product immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure the Match Grade Die is clean and free of debris.
- Select the appropriate bushing for your desired neck tension.
- Insert the bushing into the die and ensure it is seated properly.

2. Using the Match Grade Full Length Die:

- Place the case into the shell holder of your reloading press.
- Raise the ram to size the case body and bump the shoulder.
- Lower the ram and remove the sized case.

3. Using the Match Grade Neck Die:

- Place the case into the shell holder.
- Raise the ram to size the neck with the installed bushing.
- Lower the ram and remove the sized case.

4. PostUse Maintenance:

- Clean the bushing and die after use to prevent corrosion and buildup.
- Store the product in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste management regulations.

- Do not dispose of the product in regular household waste. Contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or use of the Hornady Match Grade Bushing, please contact your local authorized dealer or visit the Hornady website for further assistance. Ensure that you have your product details available for a more efficient response.

Thank you for prioritizing safety and for being a responsible user of reloading equipment. Enjoy your reloading experience with the Hornady Match Grade Bushing!
