

# MATCH GRADE BUSHING - .310" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [.310" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016875
- Mfr. No.: 594310

# MATCH GRADE BUSHING Safety Instruction Guide

## Introduction

Thank you for choosing the Hornady Match Grade Bushing. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this document carefully before using the bushing.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the bushing out of reach of children and vulnerable individuals.
- Inspect the bushing for any damage before use. Do not use if damaged.
- Store the bushing in a safe, dry place to prevent corrosion or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the bushing.
- Ensure that the bushing is properly installed before using the Match Grade Die.
- Avoid overtightening the bushing as this may cause damage to the equipment.
- Do not exceed the recommended sizing increments to prevent oversizing case necks.
- Do not use the bushing for purposes other than intended.

## Instructions for Installation and Usage

### 1. Installation of the Bushing:

- Ensure the Match Grade Die is clean and free of debris.
- Select the desired bushing size (.310" diameter) for your application.
- Insert the bushing into the die, ensuring it is seated properly.
- Tighten the bushing securely, but do not overtighten.

### 2. Using the Match Grade Die:

- Place the case into the die and ensure it is positioned correctly.
- Follow the manufacturer's guidelines for sizing the case neck.
- Use the Match Grade Full Length Die to size the case body and bump the shoulder, if necessary.
- Use the Match Grade Neck Die for neck sizing only, ensuring the shoulder is bumped as needed.

### 3. PostUse Care:

- After use, clean the bushing and die to remove any residue or debris.
- Store the bushing in its designated case or container to avoid damage.

## Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local waste management regulations.
- Do not dispose of the bushing in regular household waste if it is still functional; consider donating or recycling where possible.

## **Contact Information for Further Support**

For questions or concerns regarding the use of the Hornady Match Grade Bushing, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Hornady Match Grade Bushing. Thank you for your attention to these guidelines.
