

MATCH GRADE BUSHING - .311" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.311" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016876
- Mfr. No.: 594311

MATCH GRADE BUSHING .311" DIAMETER MATCH BUSHING Safety Instruction Guide

Introduction

Thank you for choosing the Hornady Match Grade Bushing. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that all users are familiar with the product and its intended use.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the product prior to each use for any signs of damage or wear.
- Follow all instructions provided in this guide to avoid potential hazards.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this product.
- Do not exceed the recommended specifications for the bushing, as this may lead to unsafe conditions.
- Ensure that the bushing is properly installed before use to prevent accidents.
- Avoid using the product in wet or damp conditions to prevent corrosion or electrical hazards.
- Do not modify or alter the product in any way, as this may compromise its safety and effectiveness.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure that the Match Grade Die is clean and free of debris.
- Select the appropriate bushing size (.311") for your application.
- Carefully insert the bushing into the die, ensuring it is seated properly.
- Tighten the locking mechanism to secure the bushing in place.

2. Using the Match Grade Full Length Die:

- Insert the case into the die and ensure it is properly aligned.
- Apply steady pressure to size the case body, bump the shoulder, and size the case neck.
- Remove the case and inspect for proper sizing.

3. Using the Match Grade Neck Die:

- Insert the case into the die, ensuring it is properly aligned.
- Apply steady pressure to size the neck only, while the shoulder is bumped.
- Remove the case and inspect for proper sizing.

4. Maintenance:

- Clean the bushing and die after each use to prevent buildup of residue.
- Store the product in a dry place to avoid moisture damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the Hornady Match Grade Bushing, please refer to the manufacturer's website or contact the appropriate support channels.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Hornady Match Grade Bushing. Thank you for choosing our product.
