

# MATCH GRADE BUSHING - .313" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [.313" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016878
- Mfr. No.: 594313

# Safety Instruction Guide for MATCH GRADE BUSHING .313" DIAMETER MATCH BUSHING

## Introduction

Thank you for choosing the Hornady Match Grade Bushing. This product is designed to help you achieve precise bullet tension while reloading. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

## General Safety Guidelines

- Always read and follow the manufacturer's instructions before using the product.
- Ensure that the bushing is compatible with your reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on recall notices through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the bushing only for its intended purpose: sizing case necks.
- Avoid excessive force when installing or removing the bushing to prevent damage.
- Always wear appropriate safety gear, such as safety glasses, when reloading.
- Ensure that your workspace is clean and free of any obstructions.
- Be aware of potential hazards associated with reloading, including the handling of materials and equipment.

## Instructions for Installation and Usage

### 1. Installation of the Bushing:

- Ensure your reloading die is clean and free of debris.
- Select the appropriate bushing for your desired bullet tension.
- Carefully insert the bushing into the die, ensuring it is seated properly.
- Tighten the retaining screw to secure the bushing in place, but do not overtighten.

### 2. Using the Match Grade Full Length Die:

- Insert the case into the die and raise the ram to size the case body and bump the shoulder.
- Lower the ram to remove the case and check the neck tension with the installed bushing.

### 3. Using the Match Grade Neck Die:

- Insert the case into the neck die and raise the ram to size the neck only.
- Lower the ram to remove the case and check the neck tension.

### 4. PostUse Care:

- Clean the bushing and die after each use to prevent corrosion and maintain performance.
- Store the bushing in a safe and dry place when not in use.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local waste management regulations.
- Do not dispose of the bushing in regular household waste if it is considered hazardous.

## **Contact Information for Further Support**

If you have any questions or require further assistance regarding the use of the Match Grade Bushing, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for prioritizing safety while using the Hornady Match Grade Bushing. Enjoy your reloading experience!
