

MATCH GRADE BUSHING - .315" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.315" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016880
- Mfr. No.: 594315

MATCH GRADE BUSHING Safety Instruction Guide

Introduction

Thank you for choosing the MATCH GRADE BUSHING .315" DIAMETER MATCH BUSHING by Hornady. This product is designed for precision reloading and is equipped with features that enhance your reloading experience. To ensure your safety and the proper use of this product, please read this safety instruction guide thoroughly.

General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that the product is used only for its intended purpose.
- Keep out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- Do not use the product if it is damaged or malfunctioning.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay updated on product recalls through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Use protective eyewear when handling or using reloading equipment.
- Ensure that the workspace is clean, dry, and free from clutter.
- Always follow the manufacturer's instructions when installing and using the bushing.
- Avoid overtightening components to prevent damage.
- Handle all components with care to prevent injury.
- Be aware of the potential for brass shavings and debris during use; clean the area afterward.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure the die is clean and free from debris.
- Insert the bushing into the neck sizing die until it is securely in place.
- Tighten the die according to the manufacturer's specifications.

2. Using the Bushing:

- Adjust the die to the desired size setting according to the bushing specifications.
- Insert the case into the die and ensure it is properly aligned.
- Apply pressure to resize the neck of the case.
- Inspect the resized case for proper tension and fit.

3. Maintenance:

- Clean the bushing and die after each use to prevent corrosion and buildup.
- Store the bushing in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn bushings and dies according to local regulations.
- Do not throw away in regular household waste. Instead, check with local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please contact the manufacturer directly through their official communication channels. Ensure you have the product details ready for reference.

By following these guidelines and instructions, you can safely and effectively use the MATCH GRADE BUSHING .315" DIAMETER MATCH BUSHING. Your safety is our priority. Thank you for your attention to these important safety measures.
