

MATCH GRADE BUSHING - .362" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.362" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016887
- Mfr. No.: 594362

MATCH GRADE BUSHING Safety Instruction Guide

Introduction

Thank you for choosing the MATCH GRADE BUSHING .362" DIAMETER MATCH BUSHING by Hornady. This product is designed to enhance your reloading experience while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Always handle all reloading equipment with care.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the bushing for any signs of damage before use.
- Follow the manufacturer's instructions for your specific reloading setup.
- Store the bushing in a cool, dry place to prevent deterioration.

Specific Safety Precautions for Use

- Ensure that you are using the correct bushing size for your specific application.
- Do not exceed the recommended sizing increments to avoid damaging the brass.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, while reloading.
- Avoid using the bushing if it shows signs of wear or damage.
- Maintain a clean and organized workspace to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged.
- Select the appropriate bushing size (.362" diameter) for your case neck.
- Insert the bushing into the Match Grade Neck Die or Full Length Die according to the manufacturer's instructions.
- Secure the bushing in place, ensuring it is properly seated.

2. Usage:

- Prepare your brass cases by cleaning and inspecting them.
- Insert the brass case into the die with the installed bushing.
- Operate the reloading press according to the manufacturer's instructions, ensuring smooth and controlled operation.
- After sizing, remove the case and inspect it for proper neck tension.

3. PostUsage:

- Clean the bushing and die after use to prevent buildup of debris.
- Store the bushing in its protective case to avoid damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle brass cases and other materials when possible.
- Do not dispose of products in regular household waste if they contain hazardous materials.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's official website or contact their customer service department. It is important to address any concerns regarding the safety and performance of this product.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Your careful attention to these guidelines will help ensure a safe and effective reloading experience.
