

MATCH GRADE BUSHING - .363" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

Attributes

- Name: [.363" DIAMETER MATCH BUSHING](#)

MATCH GRADE BUSHING Safety Instructions

Introduction

Thank you for choosing the Hornady Match Grade Bushing. This product is designed to enhance your reloading experience by providing interchangeable neck sizing bushings that are selfcentering. Please read and follow these safety instructions carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always handle the Match Grade Bushing with care to avoid injury.
- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before use.
- Do not use the bushing if it is damaged or shows signs of excessive wear.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses when using the bushing.
- Ensure that the bushing is properly installed before use to prevent accidents.
- Avoid oversizing the case necks to prevent damage to the brass and ensure safe operation.
- Only use bushings that are compatible with your specific reloading equipment.
- Follow the recommended sizing increments of .002 inch to maintain consistent bullet tension.
- Be cautious of sharp edges on the bushing and handle it with care.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Select the appropriate bushing based on the desired bullet tension.
- Insert the bushing into the neck die or fulllength die, ensuring it is properly seated.
- Tighten any locking mechanisms to secure the bushing in place.

2. Usage:

- Place the case into the reloading press and ensure it is positioned correctly.
- Operate the press slowly and steadily to size the case neck or body as required.
- Monitor the progress and check the case tension regularly to avoid oversizing.
- After sizing, inspect the case for uniformity and any signs of damage.

3. PostUse:

- Clean the bushing after use to remove any debris or residue.
- Store the bushing in a safe and dry location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options or designated disposal facilities.

Contact Information for Further Support

For any questions or concerns regarding the Match Grade Bushing, please contact the manufacturer or your retailer for assistance. Ensure you provide them with the product details for efficient support.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy using your Hornady Match Grade Bushing!
