

# MATCH GRADE BUSHING - .366" DIAMETER MATCH BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [.366" DIAMETER MATCH BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749016891
- Mfr. No.: 594366

# MATCH GRADE BUSHING .366" DIAMETER MATCH BUSHING Safety Instructions

## Introduction

Thank you for choosing the Hornady Match Grade Bushing. This product is designed for precise neck sizing of brass cases, ensuring optimal bullet tension and performance. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure safe use of the Match Grade Bushing by following all instructions.
- Be aware of potential hazards associated with reloading and handling of firearm components.
- Always use the product in accordance with the manufacturer's guidelines to minimize risks.
- If you are new to reloading, seek guidance from experienced users or professionals.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on product safety and recalls through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the bushing.
- Ensure that your workspace is clean, organized, and free from distractions.
- Do not exceed the recommended sizing limits for the bushing to avoid damaging your brass cases.
- Inspect the bushing for any signs of wear or damage before each use.
- Never attempt to modify the bushing or any associated equipment.
- Use the bushing only with compatible dies and equipment as specified by the manufacturer.
- Follow proper reloading practices to avoid accidents and ensure safe operation.

## Instructions for Installation and Usage

### • Installation:

1. Ensure that your reloading press is securely mounted and stable.
2. Select the appropriate Match Grade Bushing for your desired neck tension.
3. Insert the bushing into the die according to the manufacturer's instructions.
4. Secure the bushing in place, ensuring it is properly seated.

### • Usage:

1. Prepare your brass cases by cleaning and inspecting them for defects.
2. Insert the case into the die with the installed bushing.
3. Operate the reloading press to size the neck of the case, ensuring smooth operation.
4. Remove the case from the die and check the neck tension.
5. Repeat the process as necessary for additional cases, ensuring consistent results.

## Disposal Instructions

- Dispose of the Match Grade Bushing in accordance with local regulations.
- Do not dispose of any reloading components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For further assistance or inquiries regarding the Match Grade Bushing, please refer to the product packaging or visit the manufacturer's website for more information.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Hornady Match Grade Bushing. Thank you for prioritizing safety in your reloading practices.
