

LONG RANGE HYBRID TARGET 25 CALIBER (0.257") BULLETS - BERGER BULLETS 25 CALIBER (0.257") 135GR LR HYBRID TARGET BT 100/BOX

[Reloading](#) > [Bullets](#) > [Rifle Bullets](#)

The 25 Caliber 135 Grain Long Range Hybrid Target provides competitive PRS shooters and long range accuracy enthusiasts a level of precision and consistency unmatched by all other bullet manufacturers. Utilizing advanced and proprietary manufacturing processes, Berger's innovative Meplat Reduction Technology (MRT) System applies controlled pressure along the projectile nose, producing a homogeneous and repeatable bullet profile for the industry's most consistent Ballistic Coefficients (BC). The 25 cal 135gr LRHT boasts a high BC, jump-tolerant hybrid ogive profile that is Doppler Radar verified with less than 1% BC variation. A high BC is desirable for competitive shooting, however, shot-to-shot BC consistency is most critical when engaging targets to 600 yards and beyond. The 135's are tailored to cartridges such as 25 Creedmoor, 25-06 Remington, 25x47, and 25 Precision Rifle Cartridge (PRC), among others.

Safety Instruction Guide for LONG RANGE HYBRID TARGET 25 CALIBER (0.257") BULLETS

Introduction

Thank you for choosing Berger Bullets' Long Range Hybrid Target 25 Caliber (0.257") 135 Grain bullets. This guide provides essential safety instructions to ensure the safe use and handling of the product. Please read this guide carefully before use to understand the safety measures necessary for your protection and the protection of others.

General Safety Guidelines

- Ensure that all users are familiar with safe handling practices for ammunition.
- Always treat all bullets as if they are live and capable of being fired.
- Keep bullets out of reach of children and unauthorized users.
- Store bullets in a cool, dry place, away from any sources of heat or ignition.
- Regularly check for updates on product recalls or safety alerts through official channels.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when handling or shooting.
- Do not exceed the recommended load specifications for your firearm as outlined by the firearm manufacturer.
- Ensure that your firearm is in good working condition and is suitable for use with these bullets.
- Avoid using damaged or deformed bullets, as they may pose a risk of malfunction or injury.
- Never point a firearm at anything you do not intend to shoot.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

• Installation:

- Ensure that you are using a compatible firearm that is designed for 25 caliber ammunition.
- Verify that the bullet is seated properly in the cartridge case before loading it into the firearm.
- Follow the firearm manufacturer's instructions for loading and unloading ammunition.

• Usage:

- Load the firearm only when you are ready to shoot.
- Keep the firearm pointed in a safe direction at all times.
- Only discharge the firearm in a designated shooting area that is safe and approved for use.
- After shooting, always check the firearm to ensure it is unloaded before handling or transporting.

Disposal Instructions

- Dispose of any unused or damaged bullets in accordance with local regulations.
- Do not throw bullets in the regular trash. Contact your local waste management authority for proper disposal methods.
- Ensure that all spent cartridges and bullet casings are collected and disposed of safely.

Contact Information for Further Support

For any questions or concerns regarding the use of Berger Bullets, please refer to the official contact channels provided on the product packaging or visit the official Berger Bullets website.

Conclusion

Your safety is our top priority. By following these guidelines, you can ensure a safe and enjoyable experience while using Berger Bullets Long Range Hybrid Target 25 Caliber (0.257") 135 Grain bullets. Always stay informed about safety practices and updates regarding your ammunition. Thank you for your attention to these important safety measures.
