

UNTURNE 22 CALIBER BARRELS - SHILEN 22 CALIBER 1-12" TWIST UNTURNE BLANK CHROME MOLY BBL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

All the loving care of the best stock maker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell's Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plan under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 22 CALIBER 1-12" TWIST UNTURNE BLANK CHROME MOLY BBL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787224120
- Mfr. No.: NONE
- Caliber: 22 Caliber (.223-.224)
- Contour: Blank
- Material: Chrome Moly Steel
- Style: Unturned
- Twist: 1-12
- Delivery weight: 4.264kg
- Shipping height: 25mm
- Shipping width: 30mm
- Shipping length: 711mm

Safety Instruction Guide for UNTURNED 22 Caliber Barrels

Introduction

Thank you for choosing the UNTURNED 22 Caliber Barrels by SHILEN. This guide provides essential safety information and usage instructions to ensure a safe and effective experience with your barrel. Please read this guide carefully to understand how to handle and maintain your product safely.

General Safety Guidelines

- **Product Safety:** Always ensure that your barrel is used in accordance with the manufacturer's instructions to prevent accidents and injuries.
- **Enhanced Recalls:** Stay informed about any recall notices related to your product. If a recall occurs, follow the instructions provided for returning or remedying the product.
- **Online Shopping:** If purchased online, ensure the platform complies with safety requirements just as physical stores do.
- **Special Consumer Focus:** Extra care should be taken when handling firearms and related components, especially around children and vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, please ensure you have access to a contact point in the EU.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Handling:**
 - Always treat the barrel as if it is loaded.
 - Keep the barrel pointed in a safe direction at all times.
 - Use appropriate protective gear, such as safety glasses, when working with or inspecting the barrel.
- **Storage:**
 - Store the barrel in a secure location, out of reach of children and unauthorized users.
 - Ensure that the barrel is cleaned and properly maintained to prevent corrosion or damage.
- **Inspection:**
 - Inspect the barrel regularly for any signs of wear, damage, or defects before use.
 - Do not use the barrel if any issues are detected. Contact your supplier for further assistance.

Instructions for Installation and Usage

- **Installation:**
 - Ensure that the firearm is unloaded before beginning installation.
 - Follow the manufacturer's guidelines for attaching the barrel to the firearm.
 - Use appropriate tools and follow torque specifications to avoid damaging the barrel or firearm.
- **Usage:**
 - Always follow safe shooting practices when using the barrel.
 - Ensure that the ammunition used is compatible with the barrel specifications.

- Maintain a safe distance from others when firing and ensure that a proper backstop is in place.

- **Maintenance:**

- Clean the barrel regularly according to the manufacturer's instructions to ensure optimal performance.
- Check for any obstructions in the barrel before each use.

Disposal Instructions

- **Disposal of Old Barrels:** If you need to dispose of an old barrel, ensure that it is done in accordance with local regulations regarding firearms and hazardous materials.
- **Recycling:** Check with local recycling programs to see if they accept metal components from firearms.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of your UNTURNED 22 Caliber Barrels, please refer to your supplier or the manufacturer's contact resources.

By adhering to these guidelines, you can ensure a safe and enjoyable experience with your UNTURNED 22 Caliber Barrels. Always prioritize safety and responsible usage in all aspects of handling firearms and related components.
