

CONTOUR #4 BARREL...BY SHILEN - SHILEN 7MM 1-9 TWIST #4 CHROME MOLY BARREL BLANK

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 7MM 1-9 TWIST #4 CHROME MOLY BARREL BLANK](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787284094
- Mfr. No.: 7MM94CM
- Caliber: 284/7 mm (.284)
- Cartridge: -
- Contour: #4
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 1.769kg
- Shipping height: 28mm
- Shipping width: 30mm

- Shipping length: 711mm

Safety Instruction Guide for CONTOUR #4 BARREL by SHILEN

Introduction

Thank you for choosing the CONTOUR #4 BARREL by SHILEN. This guide provides essential safety instructions and guidelines to ensure the safe use and handling of your barrel. Please read this manual carefully before installation and use, and keep it for future reference.

General Safety Guidelines

- Ensure that all safety measures are followed when handling, installing, and using the barrel.
- Always treat the barrel as if it is loaded, even if you believe it is not.
- Store the barrel in a secure location, away from children and unauthorized users.
- Use appropriate protective gear, such as safety glasses and gloves, when handling the barrel.
- Be aware of your surroundings when using the barrel to ensure a safe shooting environment.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Check for recall updates on the EU's Safety Gate platform to stay informed about potential safety issues.

Specific Safety Precautions for Use

- Only use the barrel with firearms that are compatible with the specified caliber (284/7 mm).
- Ensure that the barrel is installed by a qualified gunsmith to avoid potential hazards.
- Do not attempt to modify or alter the barrel in any way, as this may compromise its integrity and safety.
- Regularly inspect the barrel for signs of wear, damage, or corrosion before use.
- Follow all local laws and regulations regarding the use of firearms and gun components.
- Do not use the barrel if it shows any signs of defects or if you are unsure about its safety.

Instructions for Installation and Usage

1. Preparation for Installation

- Gather all necessary tools and equipment before beginning the installation process.
- Ensure that you are in a clean, dry, and welllit area.

2. Installation Steps

- Consult a qualified gunsmith for the installation of the barrel.
- Ensure that the firearm is completely unloaded before beginning any work.
- Carefully follow the gunsmith's instructions for fitting the barrel to the firearm.
- Verify that all screws and fittings are tightened to the manufacturer's specifications.

3. Usage Instructions

- After installation, perform a thorough safety check of the firearm with the new barrel.
- Use appropriate ammunition that is compatible with the barrel specifications.
- Always follow the manufacturer's guidelines for safe shooting practices.
- Maintain a safe distance from others while shooting and ensure that the shooting area is clear.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding metal and firearm components.
- Do not dispose of the barrel in regular household waste.

- Consult local waste management authorities for proper disposal methods.
