

# CONTOUR #3 BARREL - SHILEN 270 CALIBER 1-10 TWIST #3 STAINLESS BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## Contour #3 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 270 CALIBER 1-10 TWIST #3 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787927103
- Mfr. No.: 270103SS
- Caliber: 270/6.8 mm (.277)
- Contour: #3
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.451kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

## Item details

Made in USA

US export classification: 0A501.c

# CONTOUR #3 BARREL SHILEN 270 CALIBER 110 TWIST #3 STAINLESS BARREL Safety Instruction Guide

## Introduction

Thank you for choosing the CONTOUR #3 Barrel Shilen 270 Caliber 110 Twist #3 Stainless Barrel. This guide provides essential safety information and instructions to ensure safe usage and maintenance of your barrel. Please read this guide carefully before use.

## General Safety Guidelines

To ensure your safety and the proper functioning of the barrel, please adhere to the following guidelines:

- Ensure that all components are compatible with your firearm.
- Inspect the barrel for any signs of damage or wear before use.
- Always handle firearms with care and follow safe handling practices.
- Store the barrel in a secure location away from children and unauthorized users.
- Use appropriate personal protective equipment (PPE) when handling or installing the barrel.
- Be aware of your surroundings and ensure a safe environment when using firearms.

## Specific Safety Precautions for Use

When using the CONTOUR #3 Barrel, please observe the following precautions:

- Only use ammunition that is specified for the 270 caliber.
- Avoid using reloaded or improperly manufactured ammunition.
- Ensure that the barrel is properly installed before firing.
- Do not attempt to modify or alter the barrel in any way.
- Regularly clean and maintain the barrel to prevent corrosion and ensure optimal performance.
- If you notice any irregularities in performance or signs of wear, discontinue use immediately and consult a professional gunsmith.

## Instructions for Installation and Usage

Proper installation and usage are critical for ensuring the safety and effectiveness of your barrel. Follow these steps:

### 1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Use appropriate tools to install the barrel according to the manufacturer's specifications.
- Tighten all screws and fittings securely but do not overtighten, as this may damage the barrel or the firearm.
- Verify that the barrel is properly aligned and secured before use.

### 2. Usage:

- Always wear eye and ear protection when firing.
- Load the firearm only when you are ready to shoot.
- Maintain a safe distance from others when firing.
- Follow all local laws and regulations regarding firearm usage.

## **Disposal Instructions**

When it comes time to dispose of the barrel, please follow these guidelines to ensure safe and environmentally responsible disposal:

- Contact your local waste management authority for guidance on proper disposal methods.
- Do not dispose of the barrel in regular household waste.
- If the barrel is damaged or no longer usable, consider recycling options if available.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and usage of the CONTOUR #3 Barrel, please reach out to your supplier or a qualified gunsmith. Always ensure that you are using the barrel in accordance with local laws and regulations.

By following these safety guidelines and instructions, you will help ensure a safe and enjoyable experience with your CONTOUR #3 Barrel Shilen 270 Caliber 110 Twist #3 Stainless Barrel. Thank you for prioritizing safety in your firearm practices.
