

# CONTOUR #3 BARREL - SHILEN 7MM 1-9 TWIST #3 STAINLESS BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## Contour #3 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 7MM 1-9 TWIST #3 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787928093
- Mfr. No.: 7MM93SS
- Caliber: 284/7 mm (.284)
- Contour: #3
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 1.52kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

# Safety Instruction Guide for CONTOUR #3 BARREL SHILEN 7MM 19 TWIST #3 STAINLESS BARREL

## Introduction

Thank you for choosing the CONTOUR #3 BARREL SHILEN 7MM 19 TWIST #3 STAINLESS BARREL. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before use.

## General Safety Guidelines

- Always handle firearms and firearm components with care and respect.
- Ensure that you are familiar with the operation and safety features of your firearm.
- Use only the appropriate ammunition specified for your barrel.
- Regularly inspect your barrel for signs of wear, damage, or defects.
- Store the barrel in a safe, dry location when not in use.
- Keep the barrel out of reach of children and unauthorized persons.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Potential Hazards:** The barrel may be subject to extreme pressures and temperatures during use. Improper handling or installation can lead to malfunctions or injuries.
- **Avoiding Hazards:**
  - Ensure the barrel is properly installed according to the manufacturer's specifications.
  - Do not exceed the recommended caliber and twist specifications.
  - Regularly clean and maintain the barrel to ensure optimal performance.
  - Avoid using damaged or worn barrels; replace them immediately.
- **Audience Specific Warnings:**
  - This product is intended for use by individuals knowledgeable in firearms and gunsmithing. If you are not experienced, seek assistance from a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure all tools and equipment are in good working condition.
- Follow the manufacturer's guidelines for installing the barrel onto your firearm.
- Tighten all fittings securely but avoid overtightening, which can cause damage.
- Verify that the barrel is aligned correctly with the action of the firearm.

### 2. Usage:

- Always wear appropriate eye and ear protection when firing.
- Conduct a thorough inspection of the barrel before each use.
- Load the firearm in a safe environment and ensure the muzzle is pointed in a safe direction.
- Fire the firearm in accordance with all safety protocols and local laws.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding metal and firearm components.
- If the barrel is damaged beyond repair, contact a local waste management authority for guidance on safe disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or installation of the CONTOUR #3 BARREL SHILEN 7MM 19 TWIST #3 STAINLESS BARREL, please reach out to your supplier or manufacturer for assistance.

This guide is designed to help you use your barrel safely and effectively. Always prioritize safety and adhere to all guidelines provided. Thank you for your attention and safe shooting!
