

CONTOUR #3 BARREL - SHILEN 30 CALIBER 1-10 TWIST #3 STAINLESS BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

Contour #3 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 30 CALIBER 1-10 TWIST #3 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787930103
- Mfr. No.: 30103SS
- Caliber: 30 Caliber (.308)
- Contour: #3
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.451kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 660mm

CONTOUR #3 BARREL SHILEN 30 CALIBER 110 TWIST #3 STAINLESS BARREL Safety Instruction Guide

Introduction

Thank you for choosing the CONTOUR #3 BARREL SHILEN 30 CALIBER 110 TWIST #3 STAINLESS BARREL. This safety instruction guide is designed to ensure your safe use of the product while complying with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the barrel to understand its proper handling, safety precautions, and maintenance.

General Safety Guidelines

- Always treat firearms and their components with respect and caution.
- Ensure that you are familiar with the laws and regulations regarding firearm components in your country or region.
- Inspect the barrel for any visible defects or damage before use.
- Store the barrel in a safe, dry place away from children and unauthorized users.
- Only use the barrel with compatible firearms and ammunition.
- Follow all manufacturer instructions for installation and usage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or handling the barrel.
- Always wear appropriate eye and ear protection when using firearms.
- Do not attempt to modify the barrel in any way, as this may compromise safety and performance.
- Use only recommended cleaning and maintenance products specifically designed for stainless steel barrels.
- Avoid using the barrel in adverse weather conditions that may affect performance.
- Be aware of your surroundings and ensure that you are in a safe environment when using the firearm.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is completely unloaded.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Carefully install the CONTOUR #3 BARREL by following the specific steps provided in the firearm's manual.
- Ensure that the barrel is securely fastened and properly aligned before use.

2. Usage:

- Load the firearm only when you are ready to shoot.
- Always point the firearm in a safe direction.
- Follow the specific shooting guidelines provided for your firearm to ensure optimal performance with the new barrel.
- After use, clean the barrel with appropriate cleaning tools and solutions to maintain its quality and performance.

Disposal Instructions

- Dispose of any packaging materials responsibly by recycling where possible.
- If the barrel becomes damaged beyond repair, consult local regulations for the proper disposal of firearm components.
- Do not dispose of the barrel in regular household waste. Instead, contact a local authority for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the CONTOUR #3 BARREL SHILEN 30 CALIBER 110 TWIST #3 STAINLESS BARREL, please contact your local dealer or the manufacturer for assistance. Ensure to have your product details at hand for more efficient support.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on your adherence to these instructions. Enjoy your shooting experience with confidence and care.
