

SANDING BELTS - VSM ABRASIVES CORPORATION 120 GRIT 1 1/2" (3.8CM) X 18 15/16" (48.1CM)

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

Attributes

- Name: [VSM ABRASIVES CORPORATION 120 GRIT 1 1/2" \(3.8CM\) X 18 15/16" \(48.1CM\)](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 925118120
- Mfr. No.: 97303
- Grit: 120
- Size: 1 1/2 x 18 15/16
- Delivery weight: 0.014kg
- Shipping height: 41mm
- Shipping width: 91mm

Safety Instruction Guide for VSM Abrasives Corporation Sanding Belts

Introduction

Thank you for choosing the VSM Abrasives Corporation Sanding Belts. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the sanding belts.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure proper ventilation when using sanding belts to avoid inhaling dust.
- Wear appropriate personal protective equipment (PPE), including safety goggles, dust masks, and gloves.
- Keep the workspace clean and free of hazards to prevent accidents.
- Store sanding belts in a dry place away from direct sunlight and moisture.
- Regularly check the sanding belts for wear and tear before use.
- Do not use damaged or wornout sanding belts.

Specific Safety Precautions for Use

- Always use sanding belts on compatible equipment designed for their size and grit.
- Do not exceed the maximum operating speed of the sanding belt as specified by the equipment manufacturer.
- Avoid applying excessive pressure while sanding; let the tool do the work.
- Keep hands and other body parts away from the sanding area while the tool is in operation.
- Ensure that the sanding belt is properly installed and secured before use.
- Do not leave the sanding tool unattended while it is in operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the sanding tool is powered off and unplugged before installation.
- Remove any old or damaged sanding belts from the tool.
- Align the new sanding belt with the tool's rollers, ensuring it fits snugly.
- Secure the sanding belt according to the manufacturer's instructions.
- Doublecheck that the sanding belt is properly aligned and tensioned.

2. Usage:

- Plug in the sanding tool and turn it on.
- Allow the sanding belt to reach full speed before making contact with the material.
- Use smooth, even strokes while sanding.
- Frequently check the sanding belt for signs of wear or damage during use.
- Turn off and unplug the tool after use, and allow it to cool down before handling.

Disposal Instructions

- Dispose of used sanding belts in accordance with local regulations.
- Do not dispose of sanding belts in regular household waste if they contain hazardous materials.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any safety inquiries or further support, please contact the manufacturer's customer service. Ensure you have the product details ready for reference.

This safety instruction guide is designed to help you use the VSM Abrasives Corporation Sanding Belts safely and effectively. By following these guidelines, you can minimize risks and enjoy a successful sanding experience.
