

SANDING BELTS - VSM ABRASIVES CORPORATION 400 GRIT 3" (7.6CM) X 25 7/32" (64CM)

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Belts](#)

To Fit Raytech Expanding Sanding Drums

About "Compact Grain" Belts - Aluminum Oxide Belts in super-fine grit (like 600) are only available in what the maker calls "Compact Grain". This process layers grit in a special adhesive and greatly increases belt life. Compact grain belts are easily identified; they are ugly! The 600 grit belt shown looks like it should be a 60 grit but IT ISN'T. It really will give a 600 grit finish and will last extremely well. Resin bonded, aluminum oxide. Sold singly.

Attributes

- Name: [VSM ABRASIVES CORPORATION 400 GRIT 3" \(7.6CM\) X 25 7/32" \(64CM\)](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 925325400
- Mfr. No.: 79851
- Grit: 400
- Size: 3 x 25 7/32
- Delivery weight: 0.023kg
- Shipping height: 79mm
- Shipping width: 109mm
- Shipping length: 262mm

Safety Instruction Guide for VSM Abrasives Corporation Sanding Belts

Introduction

Thank you for choosing the VSM Abrasives Corporation Sanding Belts. This guide provides essential safety instructions to ensure the safe use of this product. Please read this document carefully before using the sanding belts to understand the potential hazards and necessary precautions.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the sanding belts are compatible with your sanding machine.
- Inspect the sanding belt before each use for any signs of damage or wear.
- Store sanding belts in a dry, cool place away from direct sunlight.
- Keep sanding belts out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use personal protective equipment (PPE) such as safety goggles, gloves, and dust masks when operating sanding machines.
- Avoid contact with moving parts of the sanding machine while it is in operation.
- Do not exceed the recommended speed for the sanding belt as specified by the sanding machine manufacturer.
- Ensure proper ventilation when sanding to minimize inhalation of dust and particles.
- Do not use the sanding belt for any purpose other than its intended use.
- If you experience any discomfort or adverse effects while using the sanding belt, stop using the product immediately and seek medical advice.

Instructions for Installation and Usage

1. Installation:

- Disconnect the sanding machine from the power source.
- Remove any existing sanding belt from the machine.
- Align the new sanding belt with the pulleys, ensuring it is properly seated.
- Tighten the belt tension according to the manufacturer's instructions.
- Reconnect the sanding machine to the power source.

2. Usage:

- Start the sanding machine and allow it to reach the desired speed.
- Gently apply the sanding belt to the workpiece, maintaining a steady and controlled pressure.
- Do not force the sanding belt into the material; let the abrasive work at its own pace.
- Periodically check the sanding belt for wear and replace it if necessary.
- After use, turn off the sanding machine and disconnect it from the power source.

Disposal Instructions

- Dispose of used sanding belts in accordance with local waste disposal regulations.
- Do not dispose of sanding belts in regular household waste if they contain hazardous materials.

- Consider recycling options available in your area for materials such as aluminum oxide.

Contact Information for Further Support

For safety inquiries or additional support, please contact the designated EU-based contact point for VSM Abrasives Corporation. Ensure that you have the product details and any relevant information ready for a prompt response.

By following these safety instructions, you can ensure a safe and effective experience while using VSM Abrasives Corporation Sanding Belts. Thank you for your attention to safety.
