Safety Instruction Guide for #246 Ruger GP100 Spring Kit

Introduction

Thank you for choosing the #246 Ruger GP100 Spring Kit by Wilson Combat. This kit is designed to enhance the performance of your handgun by providing highquality, dropin springs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations pertaining to firearms and firearm accessories.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Store the spring kit in a safe location, out of reach of children and unauthorized individuals.
- Regularly inspect your firearm and its components for signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Do not attempt to install or modify firearm components unless you are knowledgeable and experienced in gunsmithing.
- Ensure that the firearm is completely unloaded before attempting to install the spring kit.
- Be aware of the potential hazards associated with using reduced power springs, including changes in trigger pull and hammer function.
- If you experience any malfunctions or unusual behavior after installation, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure you have a clean, welllit workspace.
- Gather necessary tools, including a punch tool and a hammer, if required.
- Verify that the firearm is unloaded and pointed in a safe direction.

2. Installation Steps

- Remove the grip and any components necessary to access the hammer and trigger assembly.
- Carefully remove the existing hammer and trigger return springs.
- Install the new RP 9, 10, or 12 lb. hammer springs and RP 8 or 10 lb. trigger return spring from the kit.
- Ensure that all springs are seated properly and securely.

3. Reassembly

- Reassemble the firearm components in the reverse order of disassembly.
- Doublecheck that all parts are securely in place before proceeding.

4. Testing

- Once reassembled, conduct a function check to ensure that the firearm operates correctly.
- Test the trigger pull and ensure that the hammer functions properly.

5. Maintenance

- Regularly clean and maintain your firearm and the installed components for optimal performance.

Disposal Instructions

- Dispose of any old springs and components in accordance with local waste disposal regulations.
- Do not dispose of any firearm components in regular household trash. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the #246 Ruger GP100 Spring Kit, please refer to the manufacturer's contact information provided with your product or visit the Wilson Combat website for additional resources.

By following these safety instructions, you can ensure a safer and more enjoyable experience with your Ruger GP100 Spring Kit. Thank you for your attention to these important safety guidelines.
