

Deluxe, 22 LR with Brown Laminated Sporter Stock

[Firearms](#) > [Rifles](#) > [Semi-Auto](#)

A straight fluted stainless steel barrel is standard on the Deluxe model. This barrel comes complete with a removable 32 Hole Compensator installed. The fluting will help remove weight and dissipate heat faster. The 32 Hole Compensator is designed to get you back on your second shot faster.

It has always been our goal to achieve bolt action accuracy from a semi-auto and this begins with the barrel. Our stainless steel barrels feature match bore and chamber tolerances. These dimensions are proprietary to Volquartsen and have evolved from over 25 years of testing. Digital gauging equipment ensures that each barrel meets our stringent criteria.
