Ruger 22/45 Auto Bolt Release

We have simplified the unloading of the bolt on the Ruger 22/45. No more manual operation of the bolt retaining lever to release the bolt. Simply pull and release the bolt handle.

Features:

- **Increased contact surface:** Ensures that the bolt does not wear like the factory part.
- **Optimized design:** The side plunger and engagement hole have been replaced with a top hole to create a "slingshot" effect.
- **CNC milled:** Precision machined.
- **Material options:** Available in stainless steel or black.
- **Compatibility:** Only compatible with MKIII 22/45 models. Not compatible with MKII 22/45 or MKIV 22/45.

Made in the USA.

Auto Bolt Release Safety Instruction Guide

Introduction

Thank you for purchasing the Auto Bolt Release for the Ruger 22/45 MKIII. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before installation and use.

General Safety Guidelines

- **Product Safety:** This product is designed to enhance the unloading process of the bolt on the Ruger 22/45 MKIII safely. Always follow the safety guidelines to prevent accidents.
- **Enhanced Recalls:** Should any safety issues arise, recall notices will be issued. Please stay informed about updates and remedies for any potentially dangerous products.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety regulations. You have the same protections as when buying in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors to prevent accidental misuse.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU-based contact point associated with this product.
- **Rapid Alerts:** Stay updated on safety alerts regarding this product through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Read the Instructions:** Always read and understand the instructions before using the Auto Bolt Release.
- **Inspect Before Use:** Regularly check the Auto Bolt Release for any signs of wear or damage. Do not use if damaged.
- **Proper Handling:** Always handle the Ruger 22/45 safely and responsibly. Treat every firearm as if it is loaded.
- **Use in Safe Environment:** Ensure you are in a safe environment when using the Auto Bolt Release, free from distractions and potential hazards.
- **Follow Firearm Safety Rules:** Always adhere to the basic rules of firearm safety, including keeping the muzzle pointed in a safe direction and keeping your finger off the trigger until ready to shoot.
- **Avoid Modifications:** Do not attempt to modify or alter the Auto Bolt Release. Unauthorized modifications can lead to unsafe conditions.

Instructions for Installation and Usage

1. Installation:

- Ensure the Ruger 22/45 is unloaded and pointed in a safe direction.
- Remove the factory bolt retaining lever according to the manufacturer's instructions.
- Install the Auto Bolt Release by following the specific instructions provided with the product.
- Ensure it is securely attached and functioning correctly before use.

2. Usage:

- To release the bolt, simply pull and release the bolt handle.
- Do not force the bolt handle; if it does not operate smoothly, stop using it and inspect for issues.
- Regularly check the Auto Bolt Release to ensure it is functioning as intended.

Disposal Instructions

- Dispose of the Auto Bolt Release in accordance with local regulations.
- If the product is damaged or no longer in use, ensure it is disposed of in a way that prevents accidental use by unauthorized individuals.

Contact Information for Further Support

For any questions or concerns regarding the Auto Bolt Release, please refer to the designated EUbased contact point associated with this product.

Thank you for following these safety instructions. Your safety and the safety of others depend on responsible use and adherence to these guidelines.
