

# Auto Bolt Release - Stainless Steel - MKIII 22/45

[Rifle Parts](#) > [Bolt Parts](#) > [Bolt Catch Parts](#) > [Bolt Catches](#)

## Ruger 22/45 Auto Bolt Release

We have simplified the unloading of the bolt on the Ruger 22/45. No more manual operation of the bolt retaining lever to release the bolt. Simply pull and release the bolt handle.

### Features:

- **Increased contact surface:** Ensures that the bolt does not wear like the factory part.
- **Optimized design:** The side plunger and engagement hole have been replaced with a top hole to create a "slingshot" effect.
- **CNC milled:** Precision machined.
- **Material options:** Available in stainless steel or black.
- **Compatibility:** Only compatible with MKIII 22/45 models. Not compatible with MKII 22/45 or MKIV 22/45.

Made in the USA.

# Auto Bolt Release Safety Instruction Guide

## Introduction

Thank you for choosing the Auto Bolt Release for your Ruger 22/45 MKIII. This product has been designed to enhance the ease of use and safety of your firearm. Please read this safety instruction guide carefully to ensure proper usage and compliance with safety regulations.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the Auto Bolt Release and the firearm in a secure location, out of reach of children.
- Familiarize yourself with the safety features of your Ruger 22/45 MKIII and the Auto Bolt Release.
- Never modify the Auto Bolt Release or use it in a manner not intended by the manufacturer.
- If you notice any unusual sounds or malfunctions, stop using the product immediately and seek professional assistance.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing the Auto Bolt Release.
- Do not attempt to install or use the Auto Bolt Release while the firearm is in a loaded condition.
- Regularly inspect the Auto Bolt Release for wear or damage. Replace it if any issues are found.
- Only use the Auto Bolt Release with MKIII 22/45 models. It is not compatible with MKII or MKIV models.
- Ensure that all components are securely attached before using the firearm.
- If you are unfamiliar with firearm operations, seek training from a qualified instructor.

## Instructions for Installation and Usage

### Installation

1. **Ensure Safety:** Confirm that the firearm is completely unloaded.
2. **Remove the Existing Bolt Release:** Follow the manufacturer's instructions to safely remove the factory bolt release.
3. **Install the Auto Bolt Release:**
  - Align the Auto Bolt Release with the designated slot.
  - Firmly press or secure the release into place until it is fully seated.
4. **Test the Installation:**
  - Perform a function check to ensure the Auto Bolt Release operates correctly.
  - Pull and release the bolt handle to verify that the bolt releases smoothly.

### Usage

- To unload the bolt, simply pull and release the bolt handle.
- Regularly practice the unloading procedure to ensure familiarity with the operation.

## Disposal Instructions

- Dispose of the Auto Bolt Release in accordance with local regulations.
- If the product is damaged or no longer needed, do not throw it in regular trash. Instead, contact local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Auto Bolt Release, please contact the EUbased customer support service. Ensure you have your product information ready to expedite the process.

By adhering to these safety guidelines and instructions, you can ensure a safer experience with your Ruger 22/45 MKIII and the Auto Bolt Release. Thank you for prioritizing safety in your firearm usage.
