Volquartsen Forward Blow Compensator

Our Forward Blow Compensator helps with both muzzle rise reduction and noise control by directing the noise through the precision machined ports, which are angled in a forward direction, towards the muzzle end of the gun rather than back towards the shooter.

Features:

- **Muzzle Rise Control:** Effectively reduces muzzle rise to improve shooting accuracy.
- **Noise Control:** Directs noise forward and away from the shooter to reduce noise pollution.
- **Design:** Precision machined ports angled in a forward direction.
- **Material:** High quality CNC machined 416 stainless steel for maximum durability and precision.
- **Thread:** 1/2 x 28 thread for easy and secure installation.
- **Origin:** Made in the USA.
- **Application:** Ideal for precision shooting and competition.

Forward Blow Compensator Safety Instruction Guide

Introduction

Thank you for choosing the Volquartsen Forward Blow Compensator. This guide provides essential safety information and instructions to ensure the safe and effective use of your product. Please read this document carefully before using the compensator.

General Safety Guidelines

- Ensure that the Forward Blow Compensator is installed correctly to prevent accidents.
- Always handle firearms with care and follow standard safety practices.
- Keep the compensator and all firearm accessories out of reach of children and unauthorized users.
- Regularly inspect the compensator for signs of wear or damage before each use.
- If you notice any irregularities, do not use the compensator and contact a qualified gunsmith.

Specific Safety Precautions for Use

- Use the compensator only with compatible firearms as specified by the manufacturer.
- Always wear appropriate hearing protection when using firearms equipped with the compensator to minimize noise exposure.
- Ensure that the compensator is securely threaded onto the firearm before use.
- Do not modify the compensator in any way as this may lead to dangerous situations.
- Avoid pointing the firearm at anything you do not intend to shoot, even when the compensator is installed.

Instructions for Installation and Usage

1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Clean the threaded muzzle of the firearm to remove any debris or dirt.
- Align the compensator with the threads on the muzzle of the firearm.
- Carefully screw the compensator onto the muzzle, ensuring it is tightened securely. Use a wrench if necessary, but avoid overtightening.
- Check that the compensator is properly aligned and does not interfere with the operation of the firearm.

2. Usage:

- Once installed, test fire the firearm in a safe environment to ensure proper function.
- Monitor the compensator for any signs of loosening during use and retighten as necessary.
- If you experience excessive recoil or noise, discontinue use and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the Forward Blow Compensator in accordance with local regulations for metal products.
- If the compensator is damaged or no longer usable, ensure it is disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any questions regarding the use or safety of the Forward Blow Compensator, please consult with a qualified firearms expert or your local dealer.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your Volquartsen Forward Blow Compensator. Always prioritize safety and compliance with local laws regarding firearm accessories. Thank you for your attention to these important details.
