## Hammer Bushing for 10/22 (package with 2 pieces)

A set of two 10/22 hammer bushings made on a Swiss automatic lathe. Our bushings have been redesigned to improve the overall trigger pull resistance. One of the bushings has a longer shank which gives the hammer a single pivot point as opposed to the two pivot points on the factory bushings.

### Features:

- **Precision manufacturing:** Manufactured on a Swiss automatic lathe for maximum accuracy.
- **Improved trigger performance:** Redesigned bushings to improve overall trigger pull resistance.
- **Single pivot point:** A longer shank bushing provides the hammer with a single pivot point, as opposed to the two pivot points of factory bushings.
- **Material:** High quality manufacturing for durability and reliability.
- **Scope of delivery:** Set contains two hammer bushes.

# Hammer Bushings Safety Instruction Guide

## Introduction

Thank you for choosing the Hammer Buchsen Hammer Bushings for your Ruger 10/22. This guide provides essential safety instructions and precautions to ensure the safe and effective use of the product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the hammer bushings with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before use.
- If you notice any defects or issues, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Do not modify the hammer bushings in any way, as this may compromise safety and performance.
- Always wear appropriate safety gear, including safety glasses, when handling or installing the bushings.
- Ensure the firearm is unloaded and pointed in a safe direction during installation.
- Avoid placing fingers inside the trigger guard until you are ready to shoot.
- Be aware of your surroundings and ensure that the area is safe for shooting activities.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that your Ruger 10/22 is unloaded and safe to handle.
- Gather necessary tools for installation, including a screwdriver and any other required tools.

### 2. Installation of Hammer Bushings:

- Carefully remove the existing hammer bushings from the firearm.
- Inspect the new hammer bushings for any visible damage before installation.
- Install the new hammer bushings by following these steps:
  - Align the longer shank bushing correctly to provide the hammer with a single pivot point.
  - Securely fasten the bushings in place according to the manufacturer's specifications.
- Doublecheck that all components are properly secured and in place.

### 3. Usage:

- After installation, conduct a function test to ensure that the trigger operates correctly.
- If any issues arise during the function test, do not use the firearm until the problem is resolved.

## Disposal Instructions

- Dispose of any old or damaged hammer bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, take it to a designated waste disposal facility.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Hammer Buchsen Hammer Bushings, please reach out to the designated contact point in your region for assistance. Ensure that you have the product details ready for a more efficient support experience.

By following these guidelines, you can ensure the safe and effective use of your Hammer Buchsen Hammer Bushings. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
