Nova Scope Rings, Alloy, Black, 30mm, High

These rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick removal and consistent return to zero. The Nova Rings are ideal for mounting any scope on a high recoil rifle.

- **Material:** Black anodized aluminum
- **Color:** Black
- **Scope tube diameter:** 30mm
- **Ring height:** High
- **Locking:** Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero
- **Range of application:** Suitable for high recoil rifles

Nova Scope Rings Safety Instruction Guide

Introduction

Thank you for choosing the Nova Scope Rings. These highquality scope rings are designed to provide maximum accuracy and stability for your high recoil rifle. It is essential to follow the safety instructions outlined in this guide to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always inspect the scope rings for any signs of damage before installation.
- Keep the product out of reach of children and vulnerable individuals.
- Be aware of your surroundings when using firearms equipped with the scope rings.
- Follow all local laws and regulations regarding firearm usage.

Specific Safety Precautions for Use

- **Installation Safety:** Ensure that the firearm is unloaded before installing the scope rings.
- **Handling:** Use caution when handling tools (e.g., Torx screws) to avoid injury.
- **Recoil Management:** Be prepared for the recoil of the firearm when using high recoil rifles.
- **Regular Checks:** Periodically check the tightness of the screws and bolts to ensure they remain secure during use.
- **Environmental Conditions:** Avoid using the product in extreme weather conditions that may affect its performance.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather the necessary tools: Torx screwdriver for the 840 screws and a wrench for the 1/420 cross bolt.

2. Installation:

- Identify the mounting location on the rifle where the scope rings will be attached.
- Align the bottom half of the scope rings with the mounting base on the rifle.
- Secure the bottom half of the rings using the 1/420 cross bolt. Ensure it is tightened but do not overtighten.
- Place the scope into the bottom half of the rings and position it to your desired eye relief.
- Attach the top half of the rings and secure them using the four 840 Torx screws. Tighten each screw gradually and evenly to ensure stability.

3. Usage:

- Once installed, check the alignment of the scope and make any necessary adjustments.
- After adjustments, ensure all screws are tightened and secure.
- Test the setup at a safe shooting range to confirm accuracy before using in the field.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer in use, consider recycling the aluminum material where possible.

- Ensure that any remaining parts are disposed of safely to avoid injury to others.

Contact Information for Further Support

For any inquiries or concerns regarding the Nova Scope Rings, please contact your local retailer or the manufacturer directly. Ensure you have your product details handy for quicker assistance.

By following these safety instructions, you can enjoy the full benefits of your Nova Scope Rings while ensuring a safe experience. Thank you for your attention to safety and for choosing our product.
