Nova Scope Rings, Alloy, Silver, 30mm, High

These rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick removal and consistent return to zero. The Nova Rings are ideal for mounting any scope on a high recoiling rifle.

- **Material:** Silver anodized aluminum
- **Color:** Silver
- **Scope tube diameter:** 30mm
- **Ring height:** High
- **Locking:** Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero
- **Range of use:** Suitable for high recoil rifles

Nova Scope Rings Safety Instruction Guide

Introduction

Thank you for choosing the Nova Scope Rings. These highquality rings are designed for mounting scopes on high recoiling rifles, ensuring maximum accuracy and stability. This guide provides essential safety instructions and information to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always inspect the scope rings for any damage or defects before installation and use.
- Ensure that the mounting surface is clean and free from debris.
- Follow all instructions carefully to avoid hazards associated with improper installation.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to scope misalignment, which can affect accuracy.
 - Failure to secure the rings properly can result in the scope detaching during use.
- **Avoiding Hazards:**
 - Ensure that all screws are tightened to the manufacturer's specifications.
 - Regularly check the tightness of screws and the condition of the rings during use.
 - Do not exceed the recommended weight limit for the scope being mounted.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a Torx screwdriver for the 840 screws.
- Ensure you have the correct scope and rifle for mounting.

2. Installation Steps:

- Place the Nova Scope Rings onto the rifle's mounting base.
- Align the scope tube with the rings.
- Secure the top half of the rings using the four 840 Torx screws. Ensure they are tightened evenly.
- Use the 1/420 cross bolt to secure the rings for quick disassembly and consistent return to zero.
- Doublecheck that the scope is level and aligned properly before final tightening.

3. Usage Tips:

- Regularly inspect the scope rings for wear and tear, especially after heavy use.
- If you notice any movement or loosening, stop using the rifle and check the installation.

Disposal Instructions

- Dispose of the Nova Scope Rings in accordance with local regulations.
- Do not dispose of the product in household waste.
- If the product is no longer usable, consider recycling the aluminum material where facilities are available.

Contact Information for Further Support

For safety inquiries or additional information regarding the Nova Scope Rings, please consult the manufacturer or your local dealer.

Thank you for prioritizing safety while using the Nova Scope Rings. Proper installation and regular maintenance will ensure optimal performance and longevity of the product.
