

# Nova Scope Rings - Black - Stainless Steel - Low - 1"/26mm

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

## Nova Scope Rings, Stainless, Black, 1", Low

These rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick disassembly and consistent return to zero. The Nova rings are ideal for mounting any scope on a high recoil rifle.

- **Material:** Stainless steel
- **Color:** Black
- **Scope tube diameter:** 1"
- **Ring height:** Low
- **Locking:** Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero
- **Range of use:** Suitable for high recoil rifles

# Nova Scope Rings Safety Instruction Guide

## Introduction

Thank you for choosing the Nova Scope Rings. These highquality stainless steel rings are designed to securely mount your scope, ensuring maximum accuracy and stability. This guide provides essential safety instructions and information to ensure the safe use and installation of your Nova Scope Rings.

## General Safety Guidelines

- Always inspect the scope rings for damage or wear before use.
- Ensure that the scope rings are compatible with your scope and firearm.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Keep the scope rings out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure the rings are installed correctly to avoid scope misalignment.
- Use only the recommended tools for installation to prevent damage.
- Do not exceed the recommended torque settings for screws to avoid stripping.
- Always secure the scope properly before use to prevent it from moving during firing.
- Avoid using the scope rings in extreme weather conditions without proper precautions.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather the necessary tools: a Torx screwdriver and a wrench for the cross bolt.
- Ensure your firearm is unloaded and pointed in a safe direction.

### 2. Installation:

- Place the scope rings on the mounting base of your firearm.
- Align the scope rings with the scope tube diameter (1"/26mm).
- Insert the scope into the rings and adjust the height to your preference.
- Secure the top half of the rings using the four 840 Torx screws. Tighten them evenly to avoid uneven pressure.
- Use the 1/420 cross bolt to secure the rings further. This allows for quick disassembly and consistent return to zero.

### 3. Usage:

- After installation, check the alignment of your scope. Make adjustments as necessary.
- Before firing, ensure that the scope is securely mounted and will not shift during use.
- Regularly check the tightness of the screws and bolts, especially after heavy use.

## Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the scope rings are damaged and no longer usable, dispose of them in accordance with local waste disposal regulations. Do not throw them in regular trash if they contain hazardous materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Nova Scope Rings, please refer to the contact information provided by your retailer or visit the manufacturer's website for additional support.

Thank you for your attention to these safety guidelines. Proper use and care of your Nova Scope Rings will enhance your shooting experience while ensuring safety.
