

Nova Scope Rings - Black - Stainless Steel - High - 1"/26mm

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

Nova Scope Rings, Stainless, Black, 1", High

These rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick disassembly and consistent return to zero. The Nova rings are ideal for mounting any scope on a high recoil rifle.

Material: Stainless steel

Color: Black

Scope tube diameter: 1"

Ring height: High

Locking: Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero

Range of use: Suitable for high recoil rifles

Attributes

- Name: [Nova Scope Rings - Black - Stainless Steel - High - 1"/26mm](#)
- Manufacturer: [VOLQUARTSEN](#)
- Product no.: BRD231551
- Mfr. No.: VCHD-S-B-1IN-H
- Color: Black
- Height: High
- Material: Stainless Steel
- Scope Tube Diameter: 1"/26mm
- Delivery weight: 1kg

Nova Scope Rings Safety Instruction Guide

Introduction

Thank you for choosing the Nova Scope Rings. These highquality scope rings are designed for maximum accuracy and stability when mounting scopes on high recoil rifles. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure the product is suitable for your specific rifle and scope setup.
- Regularly inspect the scope rings for wear and damage before each use.
- Store the product in a dry and safe place when not in use.
- Keep the product out of reach of children and vulnerable individuals.

Specific Safety Precautions for Use

- Ensure that the scope rings are securely fastened to prevent any movement during use.
- Do not exceed the recommended torque specifications when tightening screws to avoid damage.
- Avoid using the scope rings with a scope that exceeds the specified tube diameter of 1"/26mm.
- Be aware of the recoil characteristics of your rifle and ensure that the scope rings are suitable for high recoil applications.
- If you notice any signs of damage or instability during use, discontinue use immediately and inspect the product.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a Torx screwdriver and torque wrench.
- Ensure you have a clean and stable work surface.

2. Installation:

- Place the scope rings on the rifle's scope base.
- Align the rings with the scope tube, ensuring they are positioned correctly.
- Secure the top half of the ring using the four 840 Torx screws. Tighten them evenly to maintain balance.
- Use the 1/420 cross bolt to secure the rings further. This allows for quick disassembly if needed.

3. Usage:

- Once installed, check the alignment of the scope. Make adjustments as necessary.
- Test the stability of the setup by gently shaking the rifle. Ensure there is no movement in the scope rings.
- After each use, inspect the screws and bolts for tightness.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Consider recycling materials where applicable.
- Do not dispose of the product in household waste.

Contact Information for Further Support

For any safety inquiries or further support, please refer to the manufacturer's official website or contact their customer service. Ensure you have the product details ready for assistance.

Thank you for prioritizing safety while using the Nova Scope Rings. Enjoy your shooting experience!
