Nova Scope Rings, Stainless, Silver, 30mm, Low

These scope rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick disassembly and a consistent return to zero. The Nova Rings are ideal for mounting any scope on a high recoiling rifle.

- **Material:** Stainless steel
- **Color:** Silver
- **Scope tube diameter:** 30 mm
- **Ring height:** Low
- **Locking:** Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero
- **Range of use:** Suitable for high recoil rifles

Nova Scope Rings Safety Instruction Guide

Introduction

Thank you for choosing the Nova Scope Rings. These highquality scope rings are designed for accuracy and stability when mounting scopes on high recoiling rifles. This guide provides essential safety instructions and information to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the scope rings are suitable for the specific rifle and scope you are using.
- Always inspect the scope rings for any signs of damage or wear before installation.
- Follow all installation and usage instructions carefully to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Risk of Injury:** Improper installation can lead to scope damage or personal injury. Always ensure that rings are securely tightened.
- **High Recoil Caution:** These scope rings are designed for high recoiling rifles. Ensure that they are compatible with your specific rifle model.
- **Tool Safety:** Use appropriate tools for installation, and ensure they are in good condition to avoid slips or accidents.
- **Environmental Factors:** Avoid using the scope rings in extreme weather conditions that may affect performance or safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools: a Torx screwdriver for the 840 screws and a wrench for the 1/420 cross bolt.
- Ensure the rifle is unloaded and pointed in a safe direction during installation.

2. Installation Steps:

- Place the Nova Scope Rings on the rifle's mounting base, ensuring they are aligned properly.
- Secure the top half of the ring using the four 840 Torx screws. Tighten them evenly to ensure a snug fit.
- Insert the 1/420 cross bolt and tighten it to secure the rings in place.
- Doublecheck all screws and bolts for tightness before mounting the scope.

3. Usage Tips:

- After installation, test the scope's alignment and ensure it returns to zero after disassembly.
- Regularly check the tightness of the screws and bolts, especially after extensive use or firing sessions.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer in use, consider recycling materials where possible.
- Do not dispose of in regular household waste.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Nova Scope Rings, please contact the manufacturer or your local retailer.

Thank you for ensuring the safe use of the Nova Scope Rings and enjoy your shooting experience!
