

Nova Scope Rings - Silver - Stainless Steel - High - 30mm

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

Nova Scope Rings, Stainless, Silver, 30mm, High

These scope rings offer maximum accuracy and stability. They are CNC machined to exact tolerances so no lapping is required. The top half of the ring is secured by four 8-40 Torx screws. A 1/4-20 cross bolt allows for quick disassembly and a consistent return to zero. The Nova Rings are ideal for mounting any scope on a high recoiling rifle.

- **Material:** Stainless steel
- **Color:** Silver
- **Scope tube diameter:** 30mm
- **Ring height:** High
- **Locking:** Four 8-40 Torx screws (top half), 1/4-20 cross bolt for quick disassembly and consistent return to zero
- **Range of use:** Suitable for high recoil rifles

Nova Scope Rings Safety Instruction Guide

Introduction

Thank you for choosing the Nova Scope Rings. These highquality stainless steel scope rings are designed for maximum accuracy and stability, making them ideal for high recoiling rifles. This safety instruction guide provides essential information to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the scope rings are compatible with your rifle and scope specifications before installation.
- Always inspect the scope rings for any damage or defects before use.
- Follow all installation instructions carefully to avoid improper mounting, which can lead to accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates regularly on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Installation Safety:** Ensure that the rifle is unloaded and pointed in a safe direction during installation.
- **Secure Mounting:** Confirm that the four 840 Torx screws and the 1/420 cross bolt are tightened securely to prevent any movement during use.
- **Avoid OverTightening:** Do not overtighten screws as this may damage the scope or the rings.
- **Regular Checks:** Periodically check the tightness of the screws and bolts, especially after heavy use or when transporting the rifle.
- **Correct Use:** Only use the scope rings for their intended purpose, which is to mount a scope on a rifle.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and free from distractions.
- Gather all necessary tools, including a Torx screwdriver for the screws.

2. Installation Steps:

- **Step 1:** Place the scope rings on the appropriate mounting points of your rifle.
- **Step 2:** Align the scope in the rings, ensuring it is level.
- **Step 3:** Secure the top half of the rings using the four 840 Torx screws. Tighten them evenly to ensure even pressure.
- **Step 4:** Insert and tighten the 1/420 cross bolt to secure the rings in place.
- **Step 5:** Doublecheck that everything is secure and properly aligned.

3. Usage:

- Once installed, adjust your scope as needed for optimal accuracy.
- Always practice safe handling and shooting practices when using your rifle.

Disposal Instructions

- Dispose of the Nova Scope Rings in accordance with local regulations.
- Do not dispose of the product in general waste if it contains any hazardous materials.
- Contact your local waste management authority for guidance on safe disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the Nova Scope Rings, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Nova Scope Rings. Thank you for your attention to safety.
