

Aluminum Handguard - Henry

CNC'd 6061 solid billet-aluminum handguard for the Henry Lever Gun rifles. This handguard features 4 customizable insert panels. You will receive 2 textured M-Lok panels, and 2 textured solid panels. This is absolutely the strongest, heaviest-duty, most modular handguard in production.

What's Included: You will receive an awesome handguard forged by the same beings that forged Thor's Hammer. The Hoptic Bullet Quivers (and pictured Modlite) are NOT INCLUDED.

Fitment: This handguard should be an easy swap for any of the Henry Model X series of rifles, and most others. If it doesn't fit, send it back. Written installation instructions are included. It's a fairly simple swap once you get the stock handguard off. Installation should only take just a few minutes, using simple hex bit tools. No sanding.

We are not gunsmiths, and if you aren't comfortable working on your own gun, take it to a certified gunsmith, or send it to someone like Steve at Mad Pig Customs.

Known Potential Fitment Issues: Will NOT FIT on BARREL BAND guns. Other than that, no KNOWN fitment issues.

Chisel Machining Aluminum Handguard Safety Instructions

Introduction

Thank you for choosing the Chisel Machining Aluminum Handguard for your Henry Lever Gun rifles. This guide provides essential safety information, installation instructions, and guidelines for proper use. Please read this document carefully to ensure safe and effective use of your new handguard.

General Safety Guidelines

- Always handle firearms with care and ensure they are unloaded when installing or modifying accessories.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the handguard and all components for damage before installation.
- Ensure that the handguard is compatible with your specific model of Henry Lever Gun.
- If you are unsure about the installation or use of this product, consult a certified gunsmith.

Specific Safety Precautions for Use

- **Fitment Warning:** This handguard will NOT FIT on BARREL BAND guns. Ensure your rifle is compatible before purchase.
- **Installation Caution:** Follow all installation instructions carefully to avoid potential hazards.
- **Tool Safety:** Use appropriate hex bit tools and ensure they are in good condition before use.
- **Personal Safety:** Wear safety goggles and gloves during installation to protect against debris and sharp edges.
- **Return Policy:** If the handguard does not fit your rifle, please return it following the provided return policy.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and welllit.
- Gather all necessary tools, including hex bit tools.
- Remove the stock handguard from your Henry Lever Gun carefully.

2. Installation Steps:

- Align the new handguard with the mounting points on your rifle.
- Insert the customizable panels as desired (2 textured MLoc panels and 2 textured solid panels).
- Secure the handguard using the provided screws and hex bit tools.
- Ensure all screws are tightened properly but do not overtighten to avoid damage.

3. Final Checks:

- Inspect the installation to ensure the handguard is securely attached.
- Test for stability and proper fit before using the rifle.
- Keep the installation instructions for future reference.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If you need to dispose of the handguard, follow local guidelines for electronic waste and metal disposal.

- Do not throw the product in regular household waste; check for recycling options in your area.

Contact Information for Further Support

For any inquiries regarding safety, installation, or compatibility, please reach out to the manufacturer directly through the provided contact methods. Ensure you have your product details ready for efficient assistance.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy your new Chisel Machining Aluminum Handguard responsibly!
