

# DAA Mr.Bulletfeeder - Gen 2 Rifle - .223Rem

[Reloading](#) > [Bullets](#)

## Product: Mr. BulletFeeder by DAA Gen-2

**Brief Description:** The Mr. BulletFeeder by DAA Gen-2 represents a significant evolution from the original Mr. Bulletfeeder, a product meticulously developed and distributed by DAA for over a decade. With extensive experience and invaluable customer feedback accumulated during this extended period, we embarked on a journey to enhance the design and features of this exceptional bullet feeder, aiming to elevate its performance to even greater heights.

### Key Features:

#### 1. Redesigned Injection-Molded Side Wall:

- Translucent window for viewing the bullet count within the collator from below.
- One-handed operable window for easy emptying during caliber changes.
- New material for reduced operational noise.

#### 2. Lightweight Injection-Molded Collator Plate:

- Improves bullet feeding and reduces weight.
- Central tab for easy removal during caliber changes.

#### 3. Pre-Set Nose Guides:

- Allows depth and position adjustments without spacer shims.
- Effortless nose guide replacement for easy caliber changes.

#### 4. Redesigned Flip-Ramp:

- Wider and incorporating gradual angle changes.
- No need for ramp position adjustments when switching between bullet types or calibers.

#### 5. Bayonet-Type Connector for Output Tube Assembly:

- Quick and tool-free removal.
- Ensures the debris slot consistently remains at the bottom.

#### 6. Angle Indicator Plate:

- Provides users with a clear reference point to consistently set the collator at their desired angle.

#### 7. Additional Improvements:

- Larger debris slot beneath the disc.
- Rubber pads to safeguard the case feeder's side.
- Enhanced connector clamp for the output spring.
- Inclusion of a latch to facilitate the manipulation of the dislodge arm during disc removal or insertion.

**Note:** The expanding powder funnel supplied with the pistol caliber bullet feeders is for Dillon reloading machines only. Not compatible with other brands. To use with the LnL press, you will need to purchase their expanding powder funnel separately. For rifle calibers, no expanding powder funnel is included.

**US Patents:** US 7,497,155 B2 and US 8,661,959 B2

## Attributes

- Name: [DAA Mr.Bulletfeeder - Gen 2 Rifle - .223Rem](#)
- Manufacturer: [DAA Double Alpha Academy](#)
- Product no.: BRD523024
- Mfr. No.:
- Caliber: .223Rem
- Delivery weight: 10kg

# Safety Instruction Guide for DAA Mr. Bulletfeeder Gen 2 Rifle .223Rem

## Introduction

Thank you for choosing the DAA Mr. Bulletfeeder Gen 2 Rifle .223Rem. This product is designed to enhance your reloading experience by efficiently feeding bullets into your reloading press. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Always handle reloading equipment and components with care to avoid accidents.
- Keep the Bulletfeeder and all reloading components out of reach of children and unauthorized users.
- Use the Bulletfeeder only for its intended purpose as described in this guide.
- Regularly inspect the Bulletfeeder for wear and tear. Do not use if damaged.
- In case of malfunction or if you have concerns about safety, cease use immediately and consult a professional.

## Specific Safety Precautions for Use

- **Operational Safety:** Always operate the Bulletfeeder with both hands and ensure that clothing and hair are secured away from moving parts.
- **Caliber Compatibility:** Use only the appropriate caliber bullets as specified for the Bulletfeeder. Mismatched calibers can cause jams or damage.
- **Noise Levels:** Be aware that operational noise may occur. Consider using hearing protection if you are sensitive to noise.
- **Cleaning and Maintenance:** Always disconnect the Bulletfeeder from the power source before cleaning. Follow the maintenance instructions provided in the manual.
- **Debris Management:** Ensure that the debris slot is clear of obstructions before operating. Regularly check for any buildup that may affect performance.

## Instructions for Installation and Usage

### 1. Installation:

- Unbox the Bulletfeeder and ensure all components are present.
- Place the Bulletfeeder on a stable, flat surface.
- Connect the output tube assembly using the bayonettype connector. Ensure it is securely attached.
- Adjust the angle using the angle indicator plate for optimal performance.

### 2. Usage:

- Load the appropriate caliber bullets into the collator.
- Use the onehanded operable window to empty the collator during caliber changes.
- Monitor the bullet count through the translucent window.
- If necessary, make adjustments to the preset nose guides for depth and position.
- When switching between different bullet types or calibers, ensure that the redesigned flipramp is appropriately positioned.

### 3. Maintenance:

- Regularly check the Bulletfeeder for any loose screws or components.
- Clean the Bulletfeeder with a soft cloth and mild cleaner. Avoid abrasive materials that may scratch surfaces.
- Store the Bulletfeeder in a cool, dry place when not in use.

## **Disposal Instructions**

- Dispose of the Bulletfeeder and any components in accordance with local regulations.
- Recycle materials when possible. Check with local waste management for appropriate recycling options.
- Do not dispose of the Bulletfeeder in regular household waste if it is still functional. Consider donating or selling it.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the DAA Mr. Bulletfeeder Gen 2 Rifle .223Rem, please reach out to the manufacturer's support team or consult the product website for additional resources and assistance.

By following these guidelines, you can ensure a safe and enjoyable reloading experience with your DAA Mr. Bulletfeeder Gen 2 Rifle .223Rem. Thank you for your attention to safety, and happy reloading!
