

# DAA Extra Short Dillon Powder Bar - DAA Extra-Short Dillon Powder Bar - Small

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Product: DAA Extra-Short Dillon Powder Bar

**Brief Description:** The DAA Extra-Short Dillon Powder Bar is specifically designed to address a unique challenge introduced with the Dillon XL750 press. In the XL750, the Dillon Powder Measure's angled configuration necessitates the powder bar to extend directly over station #4 in the toolhead, making repositioning impossible. While not an issue with a short die in that station, it becomes problematic when running a powder check in station #3 and a bullet dropper in station #4.

## Key Features:

- Innovative extra-short powder bar designed for the Dillon XL750 press.
- Shortens the extension range towards station #4 by a full 30mm (1.15").
- Resolves interference issues with the bullet dropper in station #4.
- When fully extended, the charge bar avoids contact with a Mr.Bulletfeeder Dropper or Mini Mr.BF tube assembly.
- Charge capacity is approximately 95% of the Original Dillon small charge bar.
- Adjustment requires a 2.5mm Allen key (not included).
- Click-Adjustable screw with 12 clicks per rotation for precise charge setting.
- Crafted from black anodized 6061 Aluminum.

This Extra-Short Dillon Powder Bar offers a solution to the challenge posed by the XL750 press's design, ensuring smooth and correct functioning when using a powder check in station #3 and a bullet dropper in station #4. Crafted from high-quality materials, it provides reliable performance and precise charge adjustment.

## Attributes

# DAA ExtraShort Dillon Powder Bar Safety Instruction Guide

## Introduction

Thank you for purchasing the DAA ExtraShort Dillon Powder Bar. This product is designed specifically for use with the Dillon XL750 press, providing a solution to the challenges posed by its design. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the DAA ExtraShort Dillon Powder Bar is used only with the Dillon XL750 press.
- Always read the product instructions carefully before use.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the powder bar for any signs of damage before each use. Do not use if damaged.
- Use only recommended tools for installation and adjustment, specifically a 2.5mm Allen key.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper installation may lead to malfunction or accidents.
- Using incompatible components may cause interference or damage.

- **Avoiding Hazards:**

- Always ensure the powder bar is securely attached before operating the press.
- Do not exceed the recommended charge capacity to prevent overflow or misfires.
- Keep hands and other objects clear from moving parts during operation.
- Ensure the workspace is clean and free of obstructions to prevent accidents.

- **Age Restrictions:**

- This product is not intended for use by individuals under the age of 18 without adult supervision.

## Instructions for Installation and Usage

### 1. Installation:

- Use a 2.5mm Allen key to remove the existing powder bar from the Dillon XL750 press.
- Align the DAA ExtraShort Dillon Powder Bar with the mounting point on the press.
- Securely fasten the powder bar using the Allen key, ensuring it is tightly in place.

### 2. Usage:

- Before starting the reloading process, verify that the powder bar is correctly installed and free from obstructions.
- Set the charge using the clickadjustable screw, ensuring you adhere to the specified charge limits.
- Monitor the operation closely to ensure that the charge bar does not come into contact with the bullet dropper during use.

### 3. After Use:

- Clean the powder bar and surrounding area after each use to prevent residue buildup.
- Store the powder bar in a safe and dry location when not in use.

## **Disposal Instructions**

- Dispose of the DAA ExtraShort Dillon Powder Bar in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local recycling centers for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the DAA ExtraShort Dillon Powder Bar, please consult the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the DAA ExtraShort Dillon Powder Bar. Thank you for prioritizing safety in your reloading practices.
