Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly - though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done - they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings - the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod

Safety Instruction Guide

Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod for your cleaning needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before using the cleaning rod.

General Safety Guidelines

- Ensure that the cleaning rod is used only for its intended purpose of cleaning firearms.
- Always handle firearms with care and follow all safety protocols when cleaning.
- Keep the cleaning rod out of reach of children and vulnerable individuals.
- Inspect the cleaning rod for any damage before each use. Do not use if damaged.
- Store the cleaning rod in a safe location when not in use to prevent accidents.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Risk of scratches or damage to the firearm's bore if used incorrectly.
- Injury from improper handling or use of the cleaning rod.

- **Avoiding Hazards:**

- Always ensure that the firearm is unloaded before cleaning.
- Use the cleaning rod gently; do not apply excessive force when cleaning.
- Do not bend the cleaning rod beyond its designed limits to avoid breakage.
- Do not use the cleaning rod if it shows signs of wear or damage.
- Ensure that the cleaning area is welllit and free from distractions.

Instructions for Installation and Usage

- **Preparation:**

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including patches, solvents, and brushes.

- **Using the Cleaning Rod:**

- Attach the appropriate cleaning accessory to the end of the cleaning rod.
- Insert the cleaning rod into the bore of the firearm gently.
- Push and pull the cleaning rod smoothly through the bore, allowing it to follow the rifling.
- If necessary, apply reasonable hammer blows to the end of the cleaning rod to push tight patches through the bore. Ensure you do this carefully to avoid damaging the rod or firearm.
- After cleaning, remove the cleaning rod and inspect it for any debris or damage.

- **Maintenance:**

- Clean the cleaning rod after each use to remove any residue.
- Store the cleaning rod in a protective case or sleeve to prevent damage.

Disposal Instructions

- Dispose of any damaged cleaning rods in accordance with local regulations.
- Do not dispose of the cleaning rod in regular household waste if it is damaged. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please consult the manufacturer's website or contact your local retailer.

By following these guidelines, you can ensure the safe and effective use of your Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. Thank you for your attention to safety!
