

Tripod with Ballhead Arca-Style, Carbon - 20kg max. load capacity

[Optics & Mounting](#) > [Spotting Scopes & Accessories](#) > [Spotting Scope Accessories](#)

Stability of the top league

The Ulfhednar tripod is an excellent all-round tripod with many practical properties. The carbon legs (8 laminate layers) ensure unmatched field stability and a low weight of only 2.4kg.

The ball head can be freely rotated in all directions and is compatible with Arca rails.

The tripod can be extended up to a height of 185cm and can be folded up to a transport size of only 50cm. The legs of the tripod can be adjusted to many different angles.

With a load capacity of 20kg, this tripod can be used universally and can also be used in conjunction with the Monky Clamp as a shooting tripod.

ULFHEDNAR Tripod with Ballhead ArcaStyle

Safety Instructions

Introduction

Thank you for choosing the ULFHEDNAR Tripod with Ballhead ArcaStyle. This tripod is designed for stability and versatility, making it an excellent choice for various photography and videography needs. To ensure safe and effective use of your tripod, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always inspect the tripod before use to ensure it is in good condition.
- Do not exceed the maximum load capacity of 20kg.
- Use the tripod on a stable and level surface to prevent tipping.
- Keep the tripod away from water and extreme temperatures to avoid damage.
- Ensure that all components are securely locked before use.
- Be cautious when adjusting the legs and ball head to avoid pinching fingers or hands.
- Store the tripod in a safe location where it cannot be knocked over or damaged.

Specific Safety Precautions for Use

- The tripod is designed for adult use. Keep it out of reach of children.
- Avoid using the tripod in high winds or unstable environments.
- When extending the tripod legs, do so gradually and ensure they are locked in place before use.
- Do not use the tripod for purposes other than those intended, such as climbing or as a support for heavy objects.
- When using the tripod with the Monkey Clamp, ensure all connections are secure to avoid accidents.

Instructions for Installation and Usage

1. Setup

- Unfold the tripod legs and extend them to the desired height.
- Lock each leg in place by turning the locking mechanism clockwise.
- Adjust the angle of the legs as needed for stability.

2. Attaching the Ball Head

- Ensure the ball head is compatible with the ArcaStyle rail.
- Securely attach the ball head to the tripod by tightening the screw.
- Confirm that the ball head is locked before mounting any equipment.

3. Mounting Equipment

- Attach your camera or equipment to the ball head using the quickrelease plate.
- Ensure that the equipment is securely mounted and locked in place.

4. Adjusting the Ball Head

- Use the adjustment knobs to change the position of your equipment.
- Lock the ball head in place once you have the desired angle.

5. Folding for Transport

- To fold the tripod, unlock the legs and retract them to their shortest length.
- Ensure all components are secured for safe transport.

Disposal Instructions

At the end of the product's life cycle, please dispose of the tripod responsibly. Do not dispose of it in regular household waste. Instead, consider recycling it or taking it to a designated electronic waste disposal facility. Check local regulations for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or product support, please contact the manufacturer directly through the provided contact information. Always refer to the manufacturer's guidelines for additional assistance or clarification regarding the use of the ULFHEDNAR Tripod with Ballhead ArcaStyle.

By following these safety instructions, you can ensure a safe and enjoyable experience with your ULFHEDNAR Tripod. Thank you for your attention to these important guidelines.
