

Tripod with Ballhead Arca-Style - 12kg max. load capacity

[Optics & Mounting](#) > [Spotting Scopes & Accessories](#) > [Spotting Scope Accessories](#)

Stability of the top league

The Ulfhednar tripod is an excellent all-round tripod with many practical properties. The carbon legs (8 laminate layers) ensure unmatched field stability and a low weight of only 1,38kg.

The ball head can be freely rotated in all directions and is compatible with Arca rails.

The tripod can be extended up to a height of 160cm and can be folded up to a transport size of only 37cm. The legs of the tripod can be adjusted to many different angles.

With a load capacity of 12kg, this tripod can be used universally and can also be used in conjunction with the Monky Clamp as a shooting tripod.

ULFHEDNAR Tripod with Ballhead ArcaStyle

Safety Instruction Guide

Introduction

Thank you for choosing the ULFHEDNAR Tripod with Ballhead ArcaStyle. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your tripod. Please read this document carefully before using the product.

General Safety Guidelines

- Always inspect the tripod before use for any damages or defects.
- Ensure that the tripod is fully extended and locked before placing any equipment on it.
- Do not exceed the maximum load capacity of 12kg.
- Use the tripod on stable and level surfaces to prevent tipping or instability.
- Keep the tripod away from children and pets to avoid accidents.
- In case of any issues or concerns, do not hesitate to report unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- When adjusting the legs, ensure they are securely locked to prevent accidental collapse.
- Avoid using the tripod in extreme weather conditions, such as high winds or heavy rain, which may affect its stability.
- Be cautious when rotating the ball head to avoid pinching fingers or causing equipment damage.
- Always ensure that your camera or equipment is securely attached to the tripod before use.
- When folding the tripod for transport, ensure all legs are properly secured to prevent accidental opening.

Instructions for Installation and Usage

1. Unfolding the Tripod:

- Remove the tripod from its carrying case.
- Carefully unfold the legs, ensuring they are fully extended and locked into place.

2. Adjusting the Height:

- Release the leg locks by twisting them counterclockwise.
- Extend the legs to the desired height and securely lock them by twisting the locks clockwise.

3. Attaching Equipment:

- Ensure the ball head is securely attached to the tripod.
- Use the quickrelease plate to attach your camera or equipment, ensuring it clicks into place.

4. Using the Ball Head:

- Loosen the ball head lock to adjust the angle of your camera.
- Once the desired angle is achieved, tighten the lock to secure the position.

5. Folding the Tripod for Transport:

- Ensure all equipment is removed from the tripod.
- Unlock the leg locks and fold the legs inward.

- Secure the tripod in its carrying case for safe transport.

Disposal Instructions

When disposing of the ULFHEDNAR Tripod, please follow these guidelines: * Do not dispose of the tripod in regular household waste. * Check local regulations for proper disposal of carbon materials. * Consider recycling options for the tripod and its components.

Contact Information for Further Support

For any questions or concerns regarding the ULFHEDNAR Tripod, please refer to the manufacturer's contact information provided in the product packaging.

Thank you for your attention to these safety guidelines. Enjoy using your ULFHEDNAR Tripod with Ballhead ArcaStyle!
