AVAILABLE

## **Includes:**

- 1x IcePlate Curve (exit port left)
- 1x sealing cap (Freezer Cap)
- Accessories sold separately (see Accessories)

## **Main Features:**

### **Year-round cooling / warming solution**

Fill and freeze the IcePlate Curve to achieve an unprecedented cooling capacity of 70 watts per plate and keep your body temperature where you want it for hours. When the ice melts, you'll have ice cold water to drink. Fill them with hot water and enjoy the conductive heating effect. Integration with ICE (IcePlate Carrier Exoskeleton) for unparalleled performance.

### **Multi-curve geometry**

Corresponds exactly to the geometry of the Medium ESAPI Armor plate. Architecture of this kind offers the most comfortable cooling/heating/drinking system ever designed.

### **Easy to fill + Maximized water consumption**

A single deepened connection at the deepest Point of the bottle enables complete emptying and effortless filling every time. With the patented TotalDrain technology, you can finally drink all of the water that you carry with you. This in turn means no weight is wasted.

### **Q-Hex Baffle System**

Maintains the structure of the IcePlate Curve during the freezing process, thereby maintaining the low profile geometry and thus reduces the audible noise in the field.

### **Adjustable armor straps with side opening**

Ensure that the IcePlate Curve works with every plate carrier in the world between combat shirt and plate carrier. For users who want to use the IcePlate Curve in their plate pocket, the exact fit depends on the respective combination of plate carrier and armor.

### **Easy to clean**

The cleaning of IcePlate Curve is child's play - just put in the dishwasher or rinse with detergent and hot water.

#### **Technical data:**

- Dimensions: 9,5"x12.5"x1" (WxHxD)
- Weight: approx. 340g
- Capacity: 1.5L
- Cooling time: lasts 2-4 Hours on (after 6-8 hours of freezing overnight)
- Heating time: Lasts 3-5 hours, filled with hot water between 66°C-88°C (temperature based on personal preference/safety and outside temperature)
- BPA-free, FDA-approved, dishwasher-safe HDPE
- Multiple US and international patents pending
- Made in the USA from US materials

#### **Attributes**

- Name: [QORE PERFORMANCE, INC. IcePlate Curve - Exit Port left - Ranger Green](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003471
- Mfr. No.: IP-IcePlate-Curv
- Side: Left
- Delivery weight: 0.37kg

# Safety Instruction Guide for QORE PERFORMANCE, INC. IcePlate Curve Exit Port Left

## Introduction

Thank you for choosing the QORE PERFORMANCE, INC. IcePlate Curve Exit Port Left. This innovative cooling and drinking system is designed to enhance your hydration and temperature control in various environments. To ensure your safety and the optimal performance of the IcePlate Curve, please read and follow this safety instruction guide carefully.

## General Safety Guidelines

- Always handle the IcePlate Curve with care to prevent damage.
- Ensure the product is used for its intended purpose only.
- Regularly inspect the IcePlate Curve for any signs of wear or damage before use.
- Keep the product out of reach of children when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Risk of burns if filled with hot water exceeding 88°C.
- Risk of frostbite if filled with water frozen for extended periods.
- Choking hazard due to small parts, such as the sealing cap.

### • Avoiding Hazards:

- Do not fill the IcePlate Curve with water above 88°C.
- Limit the time water is frozen inside the IcePlate Curve to prevent excessive cooling.
- Supervise children closely when using the IcePlate Curve.
- Ensure the sealing cap is securely fastened to prevent leaks.

### • Age Specific Warnings:

- This product is not intended for children under the age of 12 without adult supervision.

## Instructions for Installation and Usage

### • Filling the IcePlate Curve:

- Open the sealing cap.
- Fill the IcePlate Curve with cold or hot water as per your preference.
- Ensure the water level is below the maximum fill line.
- Securely close the sealing cap.

### • Freezing and Heating:

- For cooling, place the filled IcePlate Curve in the freezer for 68 hours to achieve optimal cooling capacity.
- For heating, fill with hot water between 66°C and 88°C and allow to sit for 35 hours.

### • Using the IcePlate Curve:

- Attach the IcePlate Curve to your plate carrier via the adjustable armor straps.
- Ensure it fits securely between your combat shirt and plate carrier.
- When using for drinking, open the sealing cap and sip directly from the exit port.

- **Cleaning and Maintenance:**

- Clean the IcePlate Curve after each use.
- Place in the dishwasher or rinse with detergent and hot water.

## Disposal Instructions

- Dispose of the IcePlate Curve in accordance with local regulations.
- If the product is damaged or no longer usable, please recycle it where facilities exist.
- Do not dispose of the IcePlate Curve in general waste.

## Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the IcePlate Curve, please consult your retailer or the manufacturer's website for more information.

This safety instruction guide is designed to help you use the QORE PERFORMANCE, INC. IcePlate Curve safely and effectively. Following these guidelines will ensure a safe and enjoyable experience with your product. Thank you for your attention to safety.
