AVAILABLE

Includes:

- 1x IcePlate Curve (exit port right)
- 1x sealing cap (Freezer Cap)
- Accessories sold separately (see Accessories)

Main Features:

Year-round cooling / warming solution

Fill and freeze the IcePlate Curve to achieve an unprecedented cooling capacity of 70 watts per plate and keep your body temperature where you want it for hours. When the ice melts, you'll have ice cold water to drink. Fill them with hot water and enjoy the conductive heating effect. Integration with ICE (IcePlate Carrier Exoskeleton) for unparalleled performance.

Multi-curve geometry

Corresponds exactly to the geometry of the Medium ESAPI Armor plate. Architecture of this kind offers the most comfortable cooling/heating/drinking system ever designed.

Easy to fill + Maximized water consumption

A single deepened connection at the deepest Point of the bottle enables complete emptying and effortless filling every time. With the patented TotalDrain technology, you can finally drink all of the water that you carry with you. This in turn means no weight is wasted.

Q-Hex Baffle System

Maintains the structure of the IcePlate Curve during the freezing process, thereby maintaining the low profile geometry and thus reduces the audible noise in the field.

Adjustable armor straps with side opening

Ensure that the IcePlate Curve works with every plate carrier in the world between combat shirt and plate carrier. For users who want to use the IcePlate Curve in their plate pocket, the exact fit depends on the respective combination of plate carrier and armor.

Easy to clean

The cleaning of IcePlate Curve is child's play - just put in the dishwasher or rinse with detergent and hot water.

Technical data:

- Dimensions: 9,5"x12.5"x1" (WxHxD)
- Weight: approx. 340g
- Capacity: 1.5L
- Cooling time: lasts 2-4 Hours on (after 6-8 hours of freezing overnight)
- Heating time: Lasts 3-5 hours, filled with hot water between 66°C-88°C (temperature based on personal preference/safety and outside temperature)
- BPA-free, FDA-approved, dishwasher-safe HDPE
- Multiple US and international patents pending
- Made in the USA from US materials

Attributes

- Name: [QORE PERFORMANCE, INC. IcePlate Curve - Exit Port right - Frost](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003491
- Mfr. No.: IP-IcePlate-Curv
- Side: Right
- Delivery weight: 0.37kg

QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right Safety Instruction Guide

Introduction

Thank you for choosing the QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right. This innovative cooling and drinking system is designed to enhance your hydration while providing temperature control in various environments. To ensure your safety and the longevity of the product, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure safe use of the IcePlate Curve by following these guidelines:
 - Always inspect the product for any visible damage before use.
 - Keep out of reach of children unless supervised by an adult.
 - Do not use the IcePlate Curve for any purpose other than intended.
 - Avoid exposure to sharp objects that may puncture the IcePlate Curve.
 - Ensure that the IcePlate Curve is properly sealed before filling it with water.
 - Regularly check for leaks or signs of wear and tear.

Specific Safety Precautions for Use

- To minimize risks associated with the IcePlate Curve:
 - Do not fill the IcePlate Curve with boiling water; use water between 66°C-88°C for heating.
 - Avoid freezing the IcePlate Curve for longer than 8 hours to prevent potential damage.
 - Do not expose the IcePlate Curve to temperatures exceeding 100°C.
 - Ensure proper ventilation when using the IcePlate Curve in enclosed spaces.
 - If you notice any unusual odor or leakage, discontinue use immediately and contact support.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the IcePlate Curve:

1. Filling the IcePlate Curve:

- Open the sealing cap (Freezer Cap) located at the exit port right.
- Fill the IcePlate Curve with up to 1.5L of water.
- For cooling, close the cap and place the IcePlate Curve in the freezer for 6-8 hours.
- For heating, fill with hot water and ensure the cap is tightly secured.

2. Using the IcePlate Curve:

- Once frozen, place the IcePlate Curve in your plate carrier or designated pocket.
- Adjust the armor straps to ensure a secure fit with your carrier.
- For hydration, simply open the sealing cap and drink from the exit port.

3. Cleaning the IcePlate Curve:

- After use, clean the IcePlate Curve by placing it in the dishwasher or rinsing it with detergent and hot water.
- Ensure it is completely dry before storing.

Disposal Instructions

- Dispose of the IcePlate Curve responsibly:
 - Check local regulations for disposal of HDPE materials.
 - Do not incinerate or expose the product to extreme heat.
 - If the product is damaged or no longer usable, consider recycling if possible.

Contact Information for Further Support

- For any safety inquiries or concerns regarding the IcePlate Curve, please refer to the manufacturer's support resources available on their official website or contact your local distributor.

By adhering to these guidelines and instructions, you can ensure a safe and effective experience with your QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right. Thank you for your attention to safety!
