AVAILABLE

Includes:

- 1x IcePlate Curve (exit port right)
- 1x sealing cap (Freezer Cap)
- Accessories sold separately (see Accessories)

Main Features:

Year-round cooling / warming solution

Fill and freeze the IcePlate Curve to achieve an unprecedented cooling capacity of 70 watts per plate and keep your body temperature where you want it for hours. When the ice melts, you'll have ice cold water to drink. Fill them with hot water and enjoy the conductive heating effect. Integration with ICE (IcePlate Carrier Exoskeleton) for unparalleled performance.

Multi-curve geometry

Corresponds exactly to the geometry of the Medium ESAPI Armor plate. Architecture of this kind offers the most comfortable cooling/heating/drinking system ever designed.

Easy to fill + Maximized water consumption

A single deepened connection at the deepest Point of the bottle enables complete emptying and effortless filling every time. With the patented TotalDrain technology, you can finally drink all of the water that you carry with you. This in turn means no weight is wasted.

Q-Hex Baffle System

Maintains the structure of the IcePlate Curve during the freezing process, thereby maintaining the low profile geometry and thus reduces the audible noise in the field.

Adjustable armor straps with side opening

Ensure that the IcePlate Curve works with every plate carrier in the world between combat shirt and plate carrier. For users who want to use the IcePlate Curve in their plate pocket, the exact fit depends on the respective combination of plate carrier and armor.

Easy to clean

The cleaning of IcePlate Curve is child's play - just put in the dishwasher or rinse with detergent and hot water.

Technical data:

- Dimensions: 9,5"x12.5"x1" (WxHxD)
- Weight: approx. 340g
- Capacity: 1.5L
- Cooling time: lasts 2-4 Hours on (after 6-8 hours of freezing overnight)
- Heating time: Lasts 3-5 hours, filled with hot water between 66°C-88°C (temperature based on personal preference/safety and outside temperature)
- BPA-free, FDA-approved, dishwasher-safe HDPE
- Multiple US and international patents pending
- Made in the USA from US materials

Attributes

- Name: [QORE PERFORMANCE, INC. IcePlate Curve - Exit Port right - Coyote](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003492
- Mfr. No.: IP-IcePlate-Curv
- Side: Right
- Delivery weight: 0.3kg

QORE PERFORMANCE, INC. IcePlate Curve Safety Instruction Guide

Introduction

Thank you for choosing the QORE PERFORMANCE, INC. IcePlate Curve Exit Port right. This innovative hydration system is designed to enhance your performance in challenging environments by providing cooling and drinking capabilities. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- **Product Safety:** This product is designed for safe use as a nonfood item. Ensure it is used according to the instructions provided.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a notice, follow the instructions provided for safe return or remedy.
- **Online Shopping:** When purchasing online, ensure that the seller adheres to safety requirements similar to those in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach to avoid any risk of misuse.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Stay updated on any safety alerts regarding this product through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:** Risk of burns if hot water is used. Risk of freezing injuries if used incorrectly in freezing conditions. Risk of leakage if the product is damaged.
- **Avoiding Hazards:** Always check for damage before use. Do not use if the IcePlate Curve is cracked or compromised. Fill the IcePlate Curve with water within the recommended temperature range (hot water between 66°C/88°C). Ensure the sealing cap is securely fastened to prevent leakage. Do not exceed the maximum capacity of 1.5L when filling the product.
- **Age Specific Warnings:** This product is not suitable for children. Ensure that it is used only by responsible adults.

Instructions for Installation and Usage

- **Filling the IcePlate Curve:**
 1. Remove the sealing cap from the IcePlate Curve.
 2. Fill with water up to the maximum capacity line (1.5L).
 3. For cooling, freeze the IcePlate Curve for 6-8 hours overnight.
 4. For heating, fill with hot water and use immediately.
- **Using the IcePlate Curve:**
 1. Once filled, securely replace the sealing cap.
 2. Place the IcePlate Curve in your plate carrier or desired location.
 3. Adjust the armor straps if necessary to ensure a secure fit.
- **Cleaning Instructions:** After each use, clean the IcePlate Curve by placing it in the dishwasher or rinsing it with detergent and hot water. Ensure it is completely dry before storage.

Disposal Instructions

- **Disposal of the IcePlate Curve:** When the product reaches the end of its life, dispose of it in accordance with local regulations. Recycle if possible, as the product is made from BPAfree, FDAapproved HDPE material.

Contact Information for Further Support

For any questions or support regarding the QORE PERFORMANCE, INC. IcePlate Curve, please refer to the contact information provided by your retailer or visit the official QORE PERFORMANCE website for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your QORE PERFORMANCE, INC. IcePlate Curve. Thank you for your attention to safety!
