AVAILABLE

## **Includes:**

- 1x IcePlate Curve (exit port right)
- 1x sealing cap (Freezer Cap)
- Accessories sold separately (see Accessories)

## **Main Features:**

### **Year-round cooling / warming solution**

Fill and freeze the IcePlate Curve to achieve an unprecedented cooling capacity of 70 watts per plate and keep your body temperature where you want it for hours. When the ice melts, you'll have ice cold water to drink. Fill them with hot water and enjoy the conductive heating effect. Integration with ICE (IcePlate Carrier Exoskeleton) for unparalleled performance.

### **Multi-curve geometry**

Corresponds exactly to the geometry of the Medium ESAPI Armor plate. Architecture of this kind offers the most comfortable cooling/heating/drinking system ever designed.

### **Easy to fill + Maximized water consumption**

A single deepened connection at the deepest Point of the bottle enables complete emptying and effortless filling every time. With the patented TotalDrain technology, you can finally drink all of the water that you carry with you. This in turn means no weight is wasted.

### **Q-Hex Baffle System**

Maintains the structure of the IcePlate Curve during the freezing process, thereby maintaining the low profile geometry and thus reduces the audible noise in the field.

### **Adjustable armor straps with side opening**

Ensure that the IcePlate Curve works with every plate carrier in the world between combat shirt and plate carrier. For users who want to use the IcePlate Curve in their plate pocket, the exact fit depends on the respective combination of plate carrier and armor.

### **Easy to clean**

The cleaning of IcePlate Curve is child's play - just put in the dishwasher or rinse with detergent and hot water.

#### **Technical data:**

- Dimensions: 9,5"x12.5"x1" (WxHxD)
- Weight: approx. 340g
- Capacity: 1.5L
- Cooling time: lasts 2-4 Hours on (after 6-8 hours of freezing overnight)
- Heating time: Lasts 3-5 hours, filled with hot water between 66°C-88°C (temperature based on personal preference/safety and outside temperature)
- BPA-free, FDA-approved, dishwasher-safe HDPE
- Multiple US and international patents pending
- Made in the USA from US materials

#### **Attributes**

- Name: [QORE PERFORMANCE, INC. IcePlate Curve - Exit Port right - Wolf Grey](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003493
- Mfr. No.: IP-IcePlate-Curv
- Side: Right
- Delivery weight: 0.37kg

# Safety Instruction Guide for QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right

## Introduction

Thank you for choosing the QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right. This innovative hydration system is designed to provide cooling and drinking solutions for various environments. To ensure your safety and the optimal use of this product, please read this guide carefully.

## General Safety Guidelines

- **Product Safety:** The IcePlate Curve is designed for safe use. However, please follow all instructions to avoid any risks.
- **Enhanced Recalls:** In the unlikely event of a product recall, you will be notified through standardized notices. Please check for updates regularly.
- **Online Shopping:** If purchased online, ensure that the seller complies with all safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children without adult supervision.
- **EU Contact Point:** For any safety inquiries, please refer to the contact point provided by the retailer.
- **Rapid Alerts:** Stay informed about product safety through the EU's Safety Gate system.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Risk of burns: Do not fill with water above 88°C.
  - Risk of freezing: Handle with care when filled with ice to avoid frostbite.
  - Risk of leaks: Ensure the sealing cap is securely fastened before use.
- **Avoiding Hazards:**
  - Always check for cracks or damages before use.
  - Do not use if the IcePlate Curve is damaged.
  - Keep away from sharp objects that may puncture the product.
  - Do not expose the IcePlate Curve to extreme heat sources.

## Instructions for Installation and Usage

- **Filling the IcePlate Curve:**
  - Ensure the IcePlate Curve is clean before filling.
  - Fill with water through the deepened connection at the bottom.
  - For cooling, fill and freeze the IcePlate Curve for 68 hours.
  - For heating, fill with hot water between 66°C and 88°C.
- **Using the IcePlate Curve:**
  - Insert the IcePlate Curve into your plate carrier.
  - Ensure the exit port is positioned correctly for easy access.
  - Adjust the armor straps for a secure fit on your plate carrier.
- **Cleaning Instructions:**
  - Clean the IcePlate Curve after each use.
  - Place it in the dishwasher or rinse with detergent and hot water.
- **Storage:**
  - Store in a cool, dry place when not in use.
  - Avoid prolonged exposure to direct sunlight.

## Disposal Instructions

- **Disposal:**

- Dispose of the IcePlate Curve according to local regulations.
- If the product is damaged beyond repair, please recycle where possible.
- Do not dispose of in regular household waste if it contains water or other fluids.

## Contact Information for Further Support

For any questions or concerns regarding the use of the QORE PERFORMANCE, INC. IcePlate Curve, please refer to the contact details provided by your retailer or manufacturer.
