AVAILABLE

Includes:

- 1x IcePlate Curve (exit port right)
- 1x sealing cap (Freezer Cap)
- Accessories sold separately (see Accessories)

Main Features:

Year-round cooling / warming solution

Fill and freeze the IcePlate Curve to achieve an unprecedented cooling capacity of 70 watts per plate and keep your body temperature where you want it for hours. When the ice melts, you'll have ice cold water to drink. Fill them with hot water and enjoy the conductive heating effect. Integration with ICE (IcePlate Carrier Exoskeleton) for unparalleled performance.

Multi-curve geometry

Corresponds exactly to the geometry of the Medium ESAPI Armor plate. Architecture of this kind offers the most comfortable cooling/heating/drinking system ever designed.

Easy to fill + Maximized water consumption

A single deepened connection at the deepest Point of the bottle enables complete emptying and effortless filling every time. With the patented TotalDrain technology, you can finally drink all of the water that you carry with you. This in turn means no weight is wasted.

Q-Hex Baffle System

Maintains the structure of the IcePlate Curve during the freezing process, thereby maintaining the low profile geometry and thus reduces the audible noise in the field.

Adjustable armor straps with side opening

Ensure that the IcePlate Curve works with every plate carrier in the world between combat shirt and plate carrier. For users who want to use the IcePlate Curve in their plate pocket, the exact fit depends on the respective combination of plate carrier and armor.

Easy to clean

The cleaning of IcePlate Curve is child's play - just put in the dishwasher or rinse with detergent and hot water.

Technical data:

- Dimensions: 9,5"x12.5"x1" (WxHxD)
- Weight: approx. 340g
- Capacity: 1.5L
- Cooling time: lasts 2-4 Hours on (after 6-8 hours of freezing overnight)
- Heating time: Lasts 3-5 hours, filled with hot water between 66°C-88°C (temperature based on personal preference/safety and outside temperature)
- BPA-free, FDA-approved, dishwasher-safe HDPE
- Multiple US and international patents pending
- Made in the USA from US materials

Attributes

- Name: [QORE PERFORMANCE, INC. IcePlate Curve - Exit Port right - Ranger Green](#)
- Manufacturer: [QORE PERFORMANCE, INC.](#)
- Product no.: EU2003494
- Mfr. No.: IP-IcePlate-Curv
- Side: Right
- Delivery weight: 0.37kg

Safety Instruction Guide for QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right

Introduction

Thank you for choosing the QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right. This innovative cooling and drinking system is designed to enhance your hydration experience and improve performance in challenging environments. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the IcePlate Curve is used only for its intended purpose as a hydration system.
- Always inspect the IcePlate Curve for any signs of damage before use. Do not use if damaged.
- Keep the IcePlate Curve out of reach of children when not in use.
- Use only clean, potable water to fill the IcePlate Curve.
- Do not fill the IcePlate Curve with liquids exceeding 88°C (190°F) to avoid burns.
- Regularly check for leaks and ensure the sealing cap is securely fastened before use.
- Follow local regulations for the disposal of plastic products.

Specific Safety Precautions for Use

- **Temperature Awareness:**
 - Do not expose the IcePlate Curve to extreme temperatures outside of its specified limits (freezing and boiling).
- **Filling Instructions:**
 - Always fill the IcePlate Curve through the designated opening to prevent spills and ensure proper sealing.
- **Cleaning Instructions:**
 - Clean the IcePlate Curve after each use. It is dishwashersafe but can also be hand washed with warm soapy water.
- **Usage with Armor:**
 - Ensure that the IcePlate Curve is compatible with your specific plate carrier and armor setup. Adjust armor straps accordingly for a secure fit.
- **Monitoring Hydration:**
 - Regularly check your hydration levels, especially during prolonged use in hot conditions.

Instructions for Installation and Usage

1. Filling the IcePlate Curve:

- Open the sealing cap.
- Fill the IcePlate Curve with clean, potable water.
- For cooling, freeze the IcePlate Curve for 68 hours before use.
- For heating, fill with hot water between 66°C88°C (150°F190°F).
- Securely close the sealing cap after filling.

2. Using the IcePlate Curve:

- Place the IcePlate Curve into the designated pocket of your plate carrier.
- Adjust the armor straps for a comfortable and secure fit.
- Monitor the temperature of the IcePlate Curve during use to ensure safety.

3. Cleaning the IcePlate Curve:

- After use, empty any remaining liquid.
- Rinse with warm water and detergent or place in the dishwasher.
- Allow to air dry completely before storing.

Disposal Instructions

- Dispose of the IcePlate Curve in accordance with local waste management regulations.
- If the product is damaged beyond repair, ensure it is disposed of in a manner that prevents environmental harm.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the QORE PERFORMANCE, INC. IcePlate Curve, please reach out to the designated EU contact point or the manufacturer directly.

By following these safety guidelines and instructions, you can safely enjoy the benefits of the QORE PERFORMANCE, INC. IcePlate Curve Exit Port Right. Thank you for prioritizing safety and performance!
