# MDT Buffer Tube Safety Instruction Guide

## Introduction

Thank you for choosing the MDT Buffer Tube. This product is designed for use with MDT Chassis systems and is compatible with both AR15 Rifle Length and Carbine buffer tubes. To ensure safe and effective use, please read this safety instruction guide carefully. It outlines important safety guidelines, installation instructions, and disposal information to help you use the product safely and responsibly.

## General Safety Guidelines

- Always follow the manufacturer's instructions for installation and use.
- Ensure that the buffer tube is compatible with your specific firearm model.
- Regularly inspect the buffer tube for any signs of wear or damage before each use.
- Use the product only for its intended purpose; do not modify or alter the buffer tube.
- Keep the buffer tube out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Compatibility Check:** Ensure that your stock is compatible with the buffer tube. Using incompatible parts may lead to failure or accidents.
- **Inspection:** Before installation, inspect the buffer tube for any visible defects such as dents, cracks, or corrosion.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which can compromise safety.
- **Usage:** Always use the buffer tube in accordance with the guidelines provided in this manual and any relevant local laws and regulations.
- **Storage:** Store the buffer tube in a dry, cool place when not in use to prevent corrosion and degradation of materials.
- **Vulnerable Groups:** Keep this product away from children and individuals who may not understand its use or risks.

## Instructions for Installation and Usage

1. **Gather Tools and Materials:** Ensure you have all necessary tools for installation, including a wrench and any additional mounting hardware required.
2. **Remove Existing Buffer Tube:** If replacing an existing buffer tube, ensure the firearm is unloaded and follow the manufacturer's instructions to safely remove it.
3. **Install the MDT Buffer Tube:**
  - Align the buffer tube with the receiver of the firearm.
  - Securely attach the buffer tube using the appropriate screws and tools provided.
  - Ensure that the buffer tube is firmly in place and does not wobble.
4. **Attach Stock:** If using a stock, attach it according to the manufacturer's instructions, ensuring it is securely fastened.
5. **Final Inspection:** After installation, inspect the assembly to confirm that all components are securely attached and there are no visible gaps.
6. **Usage:** Use the firearm in a safe and responsible manner, following all local laws and regulations.

## Disposal Instructions

- Dispose of the buffer tube in accordance with local waste disposal regulations.

- If the buffer tube is damaged or no longer usable, consider recycling the aluminum material where possible.
- Do not dispose of the buffer tube in regular household waste if it is still functional; instead, consider donating it to a local shooting club or organization.

## **Contact Information for Further Support**

For any questions or concerns regarding the MDT Buffer Tube, please refer to the manufacturer's website or consult the retailer from whom you purchased the product for additional support. Always ensure that you have the latest information regarding safety recalls or product updates.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we wish you a safe and enjoyable experience with your MDT Buffer Tube.
