

Ballistics Weather Meters - Kestrel 5700X Elite Weather Meter With Applied Ballistics - Berry Compliant

[Shooting Accessories](#) > [Windmeters & Flags](#) > [Windmeters](#)

With the KESTREL 5700X ELITE WEATHER METER, you can engage long-range targets faster than ever before. The 5700X delivers the same proven accuracy and reliability as the industry-standard 5700 Elite, while adding increased processing power to generate faster firing solutions in the field, even for multiple extreme long-range targets.

High-Performance Features

Powered by an upgraded processor that is faster and more capable than the 5700 Elite, the 5700X provides rapid target data for extreme long-range engagements. For enhanced operational security, the adjustable Bluetooth® Low Energy signal can be reduced from full power to completely off, minimizing Bluetooth detectability.

What Is a Kestrel Ballistics Meter?

For long-range shooters, Kestrel Ballistics Meters are the industry standard for achieving first-round hits. The integrated Applied Ballistics® solver calculates your bullet's drag profile and accounts for aerodynamic jump, spin drift, Coriolis effect, and drop scale factoring—delivering highly accurate long-range shooting solutions.

Comprehensive Weather Measurements

The Kestrel 5 Series design features a large, high-resolution, high-contrast display with easily readable text. It includes dual-color backlighting, an extra-durable polycarbonate lens, AA battery operation, and optional LiNK wireless connectivity with iOS and Android app support. Like all Kestrel meters, the 5700X Elite is shock-resistant, dustproof, and waterproof, built to withstand harsh environments for years of use on the range, in the field, or during professional operations.

Connectivity and App Support

With the 5700X and LiNK Bluetooth® connectivity, you gain access to the free Kestrel LiNK Ballistics App. Create, manage, and upload firearm and bullet profiles to your Kestrel 5700X before heading out. Choose from the extensive Applied Ballistics custom drag model library for the most accurate transonic and subsonic range solutions available anywhere.

Laser Rangefinder Integration

LiNK also allows pairing with compatible laser rangefinders, seamlessly feeding target data directly into the ballistic solution—delivering unmatched speed and precision in real-world shooting scenarios.

Attributes

- Name: [Kestrel 5700X Elite Weather Meter With Applied Ballistics - Berry Compliant](#)

- Manufacturer: KESTREL
- Product no.: EU2016391
- Mfr. No.: 0857XALTANM
- Delivery weight: 0.34kg
- Shipping height: 38mm
- Shipping width: 165mm
- Shipping length: 165mm

Kestrel 5700X Elite Weather Meter Safety Instruction Guide

Introduction

Thank you for choosing the Kestrel 5700X Elite Weather Meter with Applied Ballistics. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the device.

General Safety Guidelines

- **Product Safety:** Ensure safe use by following all instructions provided in this guide. The Kestrel 5700X is designed to meet safety standards for nonfood products.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding the Kestrel 5700X. You can check for updates through official channels.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors.
- **EU Contact Point:** For safety inquiries, please refer to the manufacturer or authorized distributor.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on product safety and potential hazards.

Specific Safety Precautions for Use

- **Battery Safety:**
 - Use only AA batteries as specified in the manual.
 - Do not mix old and new batteries or different brands.
 - Dispose of batteries properly according to local regulations.
- **Environmental Conditions:**
 - Avoid exposing the device to extreme temperatures or moisture.
 - Ensure that the device is not subjected to physical shocks or impacts.
- **Bluetooth Connectivity:**
 - Disable Bluetooth when not in use to prevent unauthorized access.
 - Be cautious when connecting to other devices to avoid data breaches.
- **Display Handling:**
 - Handle the display carefully to avoid scratches or damage.
 - Use a soft, dry cloth for cleaning the lens and display.

Instructions for Installation and Usage

1. Unboxing:

- Carefully remove the Kestrel 5700X from the packaging.
- Check for any visible damage. If damage is present, do not use the device and contact support.

2. Battery Installation:

- Open the battery compartment as instructed in the manual.
- Insert AA batteries, ensuring correct polarity.
- Close the battery compartment securely.

3. Device Setup:

- Power on the device by pressing the designated button.
- Follow the onscreen prompts to set up your preferences, including language and units of measurement.

4. Using the Device:

- Familiarize yourself with the controls and display functions.
- For longrange shooting, input the necessary data for the Applied Ballistics solver.
- Ensure that the device is calibrated according to the instructions before taking measurements.

5. Bluetooth Connectivity:

- Enable Bluetooth on your Kestrel 5700X to connect with the Kestrel LiNK Ballistics App.
- Follow the app instructions for creating and managing firearm profiles.

Disposal Instructions

- **Device Disposal:**

- Do not dispose of the Kestrel 5700X in regular household waste.
- Follow local regulations for electronic waste disposal.

- **Battery Disposal:**

- Dispose of used batteries at designated recycling locations.
- Do not incinerate batteries.

Contact Information for Further Support

For any questions or concerns regarding the Kestrel 5700X Elite Weather Meter, please refer to the manufacturer's official website or your authorized distributor for support.

Thank you for your attention to these safety instructions. Your Kestrel 5700X is designed to provide reliable performance, and by following these guidelines, you can ensure a safe and effective user experience.
