

Beretta A300/1301 Handguard - Mod 1 Aluminum Top Cover

[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

The Chisel Machining Beretta Handguard is a premium CNC-machined upgrade designed for the Beretta 1301 Tactical and Beretta A300 Tactical platforms. Precision-machined from solid billet aluminum, this handguard offers superior durability, improved control, and a refined tactical appearance compared to factory forends.

Manufactured from 6061 billet aluminum, the handguard provides exceptional rigidity and heat resistance while maintaining a balanced weight profile. The extended-length design allows for a more secure and comfortable support-hand grip, enhancing recoil management and overall handling during rapid or defensive use.

Its two-piece modular construction ensures a tight, secure fit and allows for straightforward installation without permanent modification to the shotgun. The aggressive surface texturing delivers reliable grip in wet conditions, under recoil, or while wearing gloves.

Designed for both performance and aesthetics, the Chisel Machining Beretta Handguard transforms the handling characteristics of the shotgun while delivering the premium look and feel expected from a billet-machined component.

Key Features

- CNC-machined from 6061 billet aluminum
- Extended-length handguard for improved grip and control
- Two-piece modular design for secure fit and easy installation
- Aggressive texture for enhanced handling in all conditions
- Designed for Beretta 1301 Tactical and A300 Tactical models
- Durable, precision-machined professional finish

Beretta A300/1301 Handguard Safety Instruction Guide

Introduction

Thank you for choosing the Chisel Machining Beretta A300/1301 Handguard Mod 1 Aluminum Top Cover. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your new handguard. Please read this document carefully before installation and use.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the handguard by following all instructions provided in this guide. This product is designed for use with the Beretta 1301 Tactical and A300 Tactical platforms only.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product. If a recall is issued, follow the instructions provided to remedy any issues.
- **Online Shopping Safety:** If purchased online, ensure that the retailer complies with EU safety standards. Verify product authenticity and safety compliance.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure that it is kept out of reach of minors.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point for this product.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates on product safety and recalls.

Specific Safety Precautions for Use

- **Installation:** Ensure the shotgun is unloaded and pointed in a safe direction before beginning installation.
- **Handling:** Always handle the shotgun with care. Keep your finger off the trigger until ready to fire.
- **Grip:** Maintain a proper grip on the handguard to ensure stability and control during use.
- **Environmental Conditions:** Be aware of your surroundings and the conditions in which you are using the shotgun. Wet or slippery conditions can affect handling.
- **Protective Gear:** Consider wearing gloves and eye protection while handling the shotgun and installing the handguard for added safety.
- **Regular Inspection:** Frequently inspect the handguard for signs of wear or damage. Do not use the shotgun if the handguard is compromised.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools for installation (e.g., screwdrivers, wrenches).
- Ensure the shotgun is unloaded and in a safe area for installation.

2. Installation Steps:

- Remove the factory forend from your Beretta A300 or 1301 Tactical shotgun.
- Align the Chisel Machining handguard with the shotgun's mounting points.
- Securely attach the handguard using the provided hardware, ensuring a tight fit.
- Verify that the handguard is installed securely by gently pulling on it.

3. Usage:

- Hold the shotgun with both hands, ensuring a firm grip on the handguard.
- Use the extended length of the handguard for enhanced support and recoil management.

- Practice shooting in a controlled environment to become familiar with the new handguard's handling characteristics.

Disposal Instructions

- **Disposal of Product:** When the handguard reaches the end of its life, dispose of it responsibly. Check local regulations regarding the disposal of aluminum and other materials.
- **Environmental Considerations:** Recycle the handguard if possible, as aluminum is a recyclable material. Ensure that any components are disposed of in accordance with local environmental guidelines.

Contact Information for Further Support

For further assistance or inquiries regarding safety and product use, please refer to the designated contact information provided by your retailer or manufacturer.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your Chisel Machining Beretta A300/1301 Handguard. Thank you for your attention to safety!
