Constructed from foam-filled carbon fiber, the MDT CRBN Rifle Stock is exceptionally lightweight yet durable, allowing you to navigate rugged terrain on long hunts without feeling burdened. At the same time, you can trust that this stock will withstand tough conditions and heavy use.

The magnesium micro chassis with V-block bedding ensures a secure and stable action installation, providing a rock-solid foundation for your rifle. The rigid, wide forend eliminates flex, allowing for quicker follow-up shots and better trace spotting, which enhances both your precision and stability in any shooting scenario.

The foam-filled CRBN Stock also absorbs harmonic vibrations, giving the rifle a "dead-feel," allowing you to better track your shot, stay on target, and shoot more comfortably for extended periods.

With an integrated ARCA rail and M-LOK slots, the MDT CRBN Rifle Stock offers flexible options for mounting bipods, tripods, and other accessories, making it adaptable to your specific shooting needs. The adjustable length of pull via spacers, integrated thumb shelf, and front and rear QD cups for attaching QD slings ensure optimal comfort and ergonomic support, perfect for long hunts and competitions.
