

Chassis - LSS Gen3 System - Ruger American - SA - RH - Worker - BLK

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT LSS GEN3 Worker Kit is built for those who value reliability, portability, and simplicity in one rugged, hard-working platform. Whether you're hunting hogs at dusk, riding the fenceline at first light, or keeping a coyote rifle behind the truck seat, this chassis is always ready to go when you are.

Lightweight, compact, and easy to run, the Worker Kit is designed for real-world use. Toss it in the truck. Strap it to your pack. Hand it to a new shooter or a seasoned rifleman—it simply works. No unnecessary bulk. No complicated setup. Just dependable performance when it matters.

Built for movement, this setup shines whether you're covering miles on foot or hopping in and out of a vehicle all day. It deploys quickly and carries comfortably, making it ideal as a truck gun, ranch rifle, pack build, or even a youth training platform. Whether it's your first rifle or your fifth, this is the kind of build that earns its keep—and gets used hard.

The short forend with durable polymer side panels keeps the profile slim while adding comfort, grip, and temperature resistance where it counts. At the rear, the CCS buttstock maintains a compact footprint without sacrificing ergonomics, giving shooters of all experience levels a stable and intuitive shooting position.

Under the hood, the Worker Kit delivers the same professional-grade features serious shooters rely on. AICS magazine compatibility ensures broad mag options and dependable feeding. The V-block bedding system provides a secure, repeatable action fit without traditional bedding work. M-LOK slots allow you to add accessories as needed, from bipods to slings and beyond.

Though it comes pre-built for convenience, the Worker Kit is powered by the LSS GEN3 Chassis platform at its core—meaning you're never locked into one configuration. Upgrade the stock. Change the grip. Swap the forend for a full-length ARCA setup. It's ready to grow as your needs evolve.

Safety Instruction Guide for MDT Chassis LSS Gen3 System

Introduction

Thank you for choosing the MDT Chassis LSS Gen3 System. This guide provides essential safety instructions to ensure the safe and effective use of your new product. Please read this manual carefully before using the MDT Chassis.

General Safety Guidelines

- Always handle firearms and firearm accessories with care and respect.
- Ensure that the product is used in accordance with all local laws and regulations.
- Keep the MDT Chassis out of reach of children and unauthorized persons.
- Regularly inspect the product for signs of wear or damage before each use.
- Report any unsafe conditions or accidents involving the product to the appropriate authorities.

Specific Safety Precautions for Use

- **Use with Compatible Firearms:** Ensure that the MDT Chassis is compatible with your specific firearm model, in this case, the Ruger American.
- **Proper Handling:** Always treat your firearm as if it is loaded. Keep the muzzle pointed in a safe direction and your finger off the trigger until ready to shoot.
- **Secure Attachment:** Make sure the chassis is securely attached to the firearm before use. Follow the installation instructions provided in this guide.
- **Environmental Considerations:** Avoid using the chassis in extreme weather conditions that may affect performance or safety.
- **Training:** If you are a new shooter, seek training from a qualified instructor to understand safe handling and operation of firearms.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing stock from the Ruger American according to the manufacturer's instructions.
- Align the MDT Chassis with the firearm's action and secure it using the provided screws.
- Confirm that the chassis is firmly attached and does not wobble.

2. Usage:

- Adjust the CCS buttstock for a comfortable fit based on your shooting style and body size.
- Utilize the AICS magazine compatibility for reliable feeding during use.
- If needed, attach accessories using the MLOK slots provided on the chassis.
- Regularly check the tightness of all screws and components before and during use.

Disposal Instructions

- Dispose of the MDT Chassis in accordance with local regulations regarding plastic and metal waste.
- Do not incinerate or dispose of in regular household waste.
- Consider recycling components where possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or assistance regarding the MDT Chassis LSS Gen3 System, please contact your local distributor or the manufacturer directly.

Conclusion

Your safety is our priority. By following these guidelines and instructions, you can ensure a safe and enjoyable experience with your MDT Chassis LSS Gen3 System. Always prioritize safety and responsible firearm handling.
